Tricks and Tips 1

Surpass your limits with Overdrive!

Collect over 1000 Kudos and Lola will start to sing, causing Copen to enter the “Overdrive” state!
This gives him access to super-powerful “OD (Overdrive) Abilities”!

Bump for Bullits!

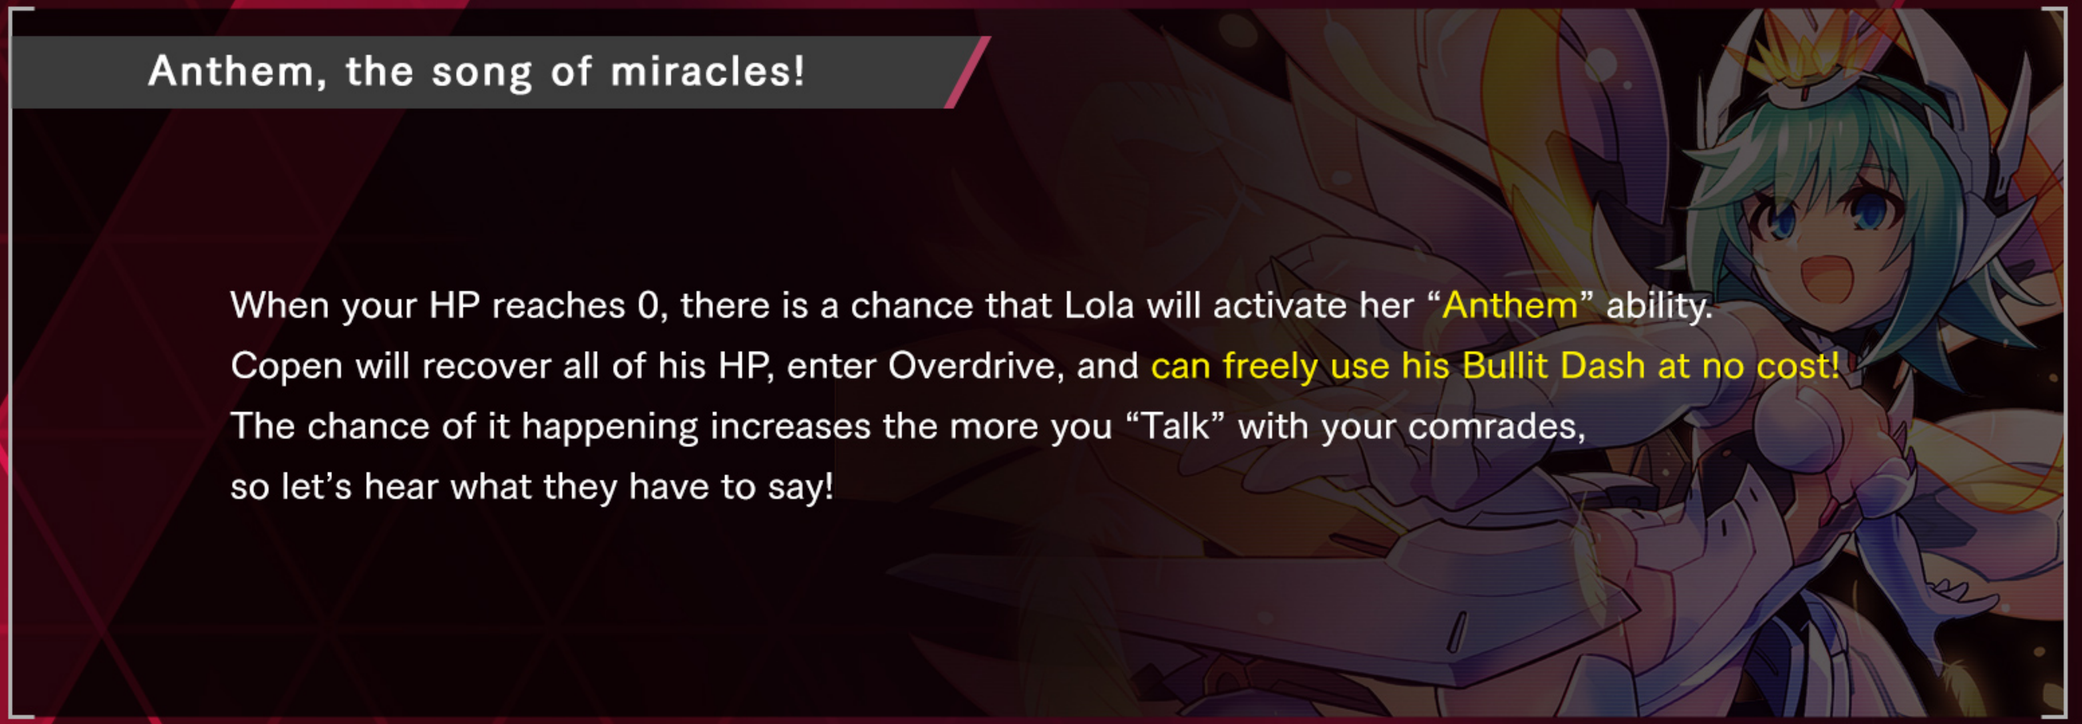
Any time you collide into an enemy or terrain with the Bullit dash, you’ll recover 1 Bullit.

Aim for an Air Combo!

Defeat enemies back-to-back without landing on the ground for a big Kudos bonus!
For an even bigger bonus, get the last hit with an EX Weapon.
Also, bumping into the ground with a Bullit dash doesn’t break the combo, so recharge those Bullits!

Tricks and Tips 2

Anthem, the song of miracles!



When your HP reaches 0, there is a chance that Lola will activate her “Anthem” ability.
Copen will recover all of his HP, enter Overdrive, and can freely use his Bullit Dash at no cost!
The chance of it happening increases the more you “Talk” with your comrades,
so let’s hear what they have to say!
