My Very Own Light

Smart enough to Prevail?

In **My Very Own Light**, it's up to you to find how to move forward throughout the adventure.

Nevertheless, here are some useful tips to start the adventure on the right foot:

- **Read the notes** that sprinkle the levels, they contain valuable clues.
- Follow the **cables** to find out what they activate.
- You can walk into **pentagrams to save** your progress.
- Put your lantern down to **scan one place while exploring another**.
- William lifts his hand slightly when he can **climb over** an object.

- **Search your environment** to find useful objects.
- Items are placed on your back **according to their size**.
- If you choose an occupied slot you will **drop the old object**.
- **Tools and weapons** are useful in **combat**.
- Eating **food cicatrize wounds**.
- The **wounds will become fractures** if they are touched again.
- **Splints** are used to treat **fractures**.
- **Clues in battle** can help you avoid injury.

- Find **each level maps** to locate yourself more easily in the property.
- **Go back to see the characters** on the property, they may have surprises.
- The **trunks and reddish columns** will reveal their interest **later**.
- When you die, you **lose all items and memories** discovered after your last save.

Menus

And take advantage of the menus:

- The **Inventory** allows you to view your items, heal yourself and set your traps.
- The **“Memories”** menu allows you to reread the discovered texts.
- In **“Map”** you can find your way thanks to the collected maps.
- The **“Sense Organs”** menu allows you to adjust the various game options.

- The “**Past**” menu allows you to “**Restart the** Area” in which you are.
- Loading a level of “**Previous Rituals**” returns you to your **last save of that area**.
