MANUAL

GARDEN AND WATERDESTILLER

If you want to bother less about searching food and water, the garden and waterdestiller ar the way to go.
For the garden simply sacrafice a herb, ginger, mushroom, potato... and multiply them over time as they grow.
The water destiller extracts water out of organic material, it requires a canteen as container and organic material to extract water from.

PHONETABLE

The island is filled with hidden treasures wich can be traded for loot at the phonetable.
The better the treasure the better the loot. Each trade requires a battery as "fuel"

CAVES

You will soon find yourself searching for ores to boost your progress, so narurally caves are the way to go.
There are many maze like caves located all over the island. Their all filled with ores, items and enemyes so better be prepared.

Activate your Bodyflashlight by pressing L and you will soon find
what your looking for. But be sure to bring some spare batteries (consume to recharge)
so you wont get lost.

LEGENDARY WEAPONS AND LETTERS

We want to revard players who go of the beaten path. So you will not only find hidden treasures. Legendary weapons, and forgotten letters are waiting to be found. General information is usually found in abondened villages, wich act as Infohubs for the player.
