ANGRY BUNNY TUTORIAL

Game mission:

Player Bunny mission is to find way home which is black rabbit hole. Green Virus and Worm Virus and their army is trapped hole with big Virus egg
To achieve this goal, player need first collect hidden key and then with help of key open locked Chains which contain magic crystal. With help of Crystal player bunny can explode Virus Egg which is obstacle between player and finish black rabbit hole.
End of levels player will meet different enemies like Green Boss Virus or Immortal Worm virus which can only avoided

Player bunny need also avoid different traps like spikes, Bomb enemies and enemies which appears underground. Some levels also contains Worm virus which will chase player in different areas, but worm virus is immortal and can't be killed
Also game include swimming mechanics. Player can swim underwater and see dangerous jellyfishes. Also if player is too long underwater, oxygen may run out and cause player death. Also falling from map kill player.

BIG ENEMY/BOSS FIGHTS

Game contains 2 bigger enemies: .They appear most of levels but not all levels

Purple Worm Virus:

- Cant be killed. Chase player only run and avoid it

Green Ghost Virus:

- Appears/Spawn end of level. Hunts player, Shoot mines. Player need avoid or/and shoot magic balls through Green Virus Tentacles, when 8-10 balls hitted to boss tentacles it will die. But player need to make exact shots to tentacles so otherwise boss will not get

hits/damage

- Sometimes Green virus boss also spreads magic balls which player can collect
