

Hello.

Welcome to the NWO Remote Chemtrail Program. Since homeoffice is mandatory due to the current situation, we were charged with providing a program to allow all aspects of population control to be continued uninterrupted.

As the low version number indicates, some features are still missing or untested, so the population can still be persuaded relatively easily.

Should you happen to find an error, please report it to us, before our reptilian overlords find out and punish us.
https://steamcommunity.com/app/1365600/discussions/2/

Known errors are listed here and the responsible software engineers were punished and recycled as mandated:
https://steamcommunity.com/app/1365600/discussions/1/3105763714510415552/

Frequently asked questions can be found here, and as a courtesy we also provided answers:
https://steamcommunity.com/app/1365600/discussions/1/3105763714504148107/

An overview of features planned to please our reptilian overlords, you will find here:
https://steamcommunity.com/app/1365600/discussions/1/3105763714510406172/

Rank and Promotion
NWO Desinfo Portal

System Requirements

Screen ratios of 16:9, 16:10 and 21:9 are supported. A mouse with two buttons and a wheel as provided in your NWO-Welcome-Package is required. If you did not receive a Welcome-Package, please refrain from asking us, show some initiative and get one.

Specifications of our test system:

Windows 10
Intel Core i5-3570K 3.4 GHz or comparable
8 GB RAM
GeForce GTX 1080 or comparable
1 GB free HD space
Active internet connection when using the internal browser (optional)

Playable with limitations:

Windows 10
Intel Core i3-7020U 2.3 GHz or comparable
8 GB RAM
Intel HD 620 or comparable
1 GB free HD space
Active internet connection when using the internal browser (optional)

Main Menu

Without a running game:
Continue Game: Continues the last saved game.

While game is running:
Resume Game: Closes the menu and returns to the active game.
Save Game: Saves the current game, and allows you to overwrite old games and open the savegame folder.

Always:
Load Game: Here you can load saved games and open the savegame folder.
Start New Game: Start a new game from scratch.

Settings

- Graphics: Adjust the resolution and toggle fullscreen mode
- Audio: Levels for music, background and sound effects are adjusted here.
- Key Binding: Adjust the keybindings.
- Activate/Deactivate tooltips
- Activate/Deactivate help

Credits
Have a look at our Startnext Crowd and who else is colluding with us to take over the world in the name of our reptilian overlords. Praise Them!

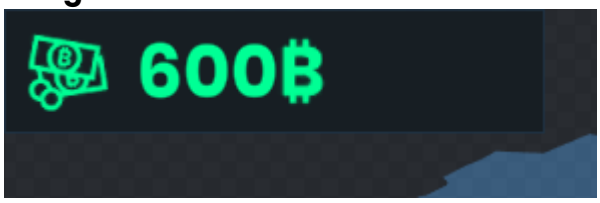
End Game
Back to Desktop.

Command Center

Controls

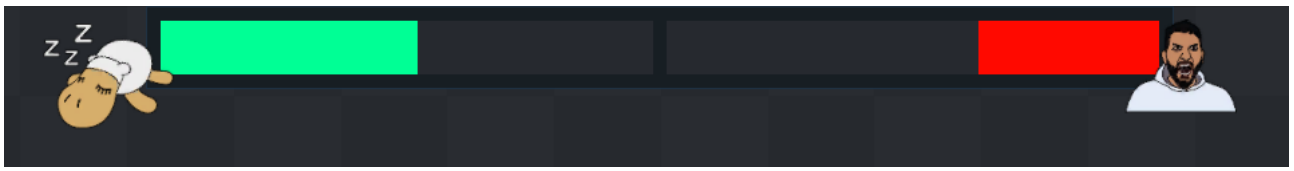
- Use the mousewheel to zoom in and out of the map.
- Move the map by clicking the left mouse button and dragging.
- Select objects on the map by left-clicking.
- Escape opens the main menu when you are on the world map.
- Escape: Pause / Open Main Menu
- B: Open Construction Menu
- 1, 2 and 3: Adjust Game Speed

Budget



The budget displays your current amount of BitCoins. Every two weeks you receive bitcoins according to your status compared to the status of the awakened.

Status

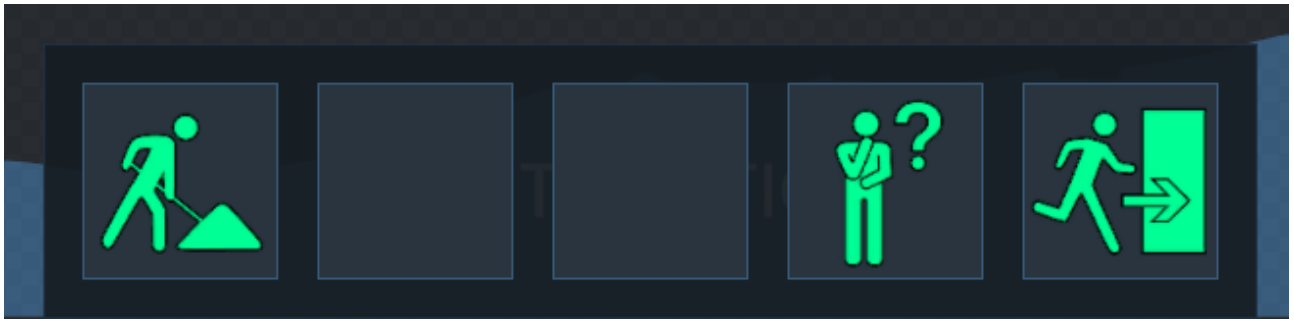


The green bar shows your influence.
The red bar shows the influence of the awakened. You have to fill up your bar faster in order to win the game. A click toggles a detailed view of different sectors.

Date

Shows the current date of the game. Here you can also toggle three different game speeds (alternatively: Keys 1, 2 and 3). When you open the Main Menu the game pauses and you can go to the toilet or slurp some Adrenochrome. Below the date the next payday is indicated.

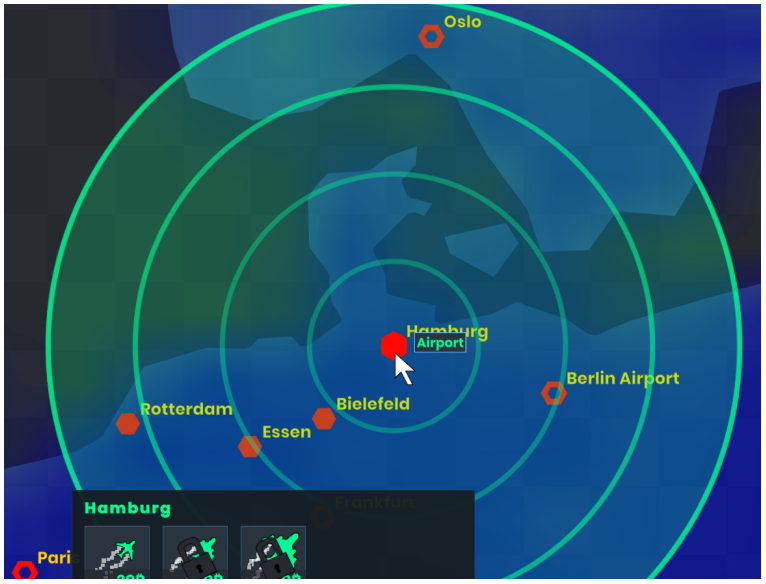
Taskbar



When you click on empty space in the world map you toggle the taskbar. Here you can place units, as well as display a help-video or open the main menu.

Chemtrails

Airports



All hexagons* on the world map are airports that you can click. Here you can start chemtrail planes, if you have enough BitCoins. Chemtrail planes have quite an intense coverage and are very effective against the rabble of protesting angry citizens. Chembusters however can dissolve the chemtrails (however they manage to do that) and disrupt your coverage.

*You know why they're hexagons, don't you? It's because...OW..AAH..NO...PLEASE STOP, NO BITING... OW..., I DIDN'T KNOW IT WAS A SECRET! OW!...

Aircraft

Every plane has an airport as designated home base. You can either let the plane circle

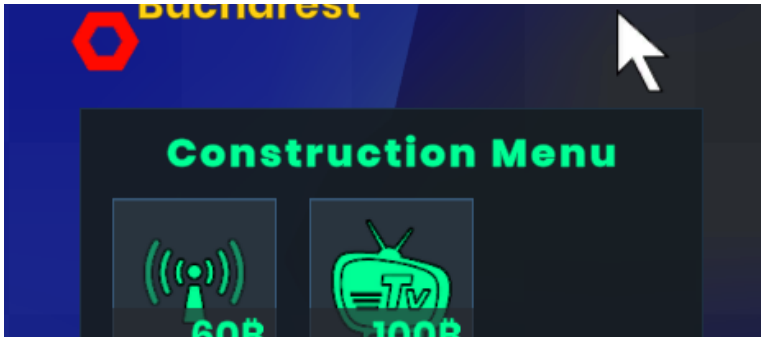
around the airport or create a route. The higher the speed of the plane, the lower the intensity of the chemtrails.

Routes

In the plane-menu click on the route-icon on the right handside. Airports in close vicinity are highlighted for your convenience, but you can also select airports further away. Select the home base of the plane as the last stop to create a closed route. Confirm your selection by clicking on the green check. A selected route can be removed in the same way.

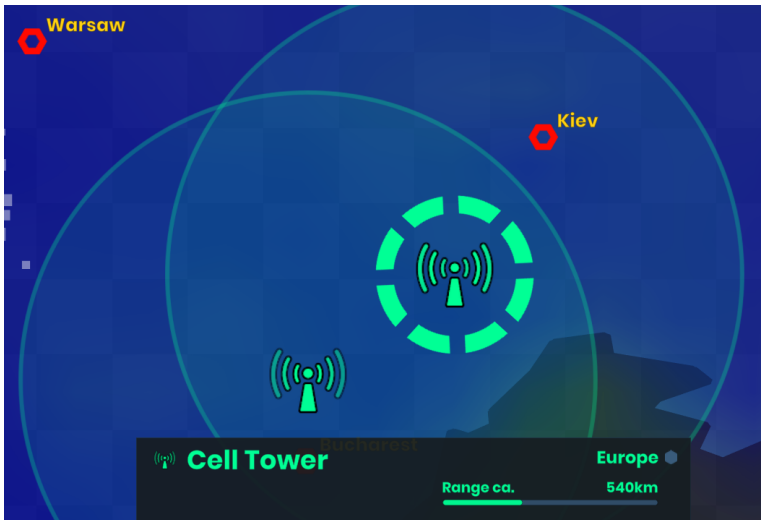
Other Units

Construction Menu



Click on the construction worker in the taskbar to open the construction menu. Here you can select mobile phone towers or media houses of the NWO-lying-media. They can only be placed on land. You can cancel the placement by clicking the right mouse button.

Mobile Phone Towers



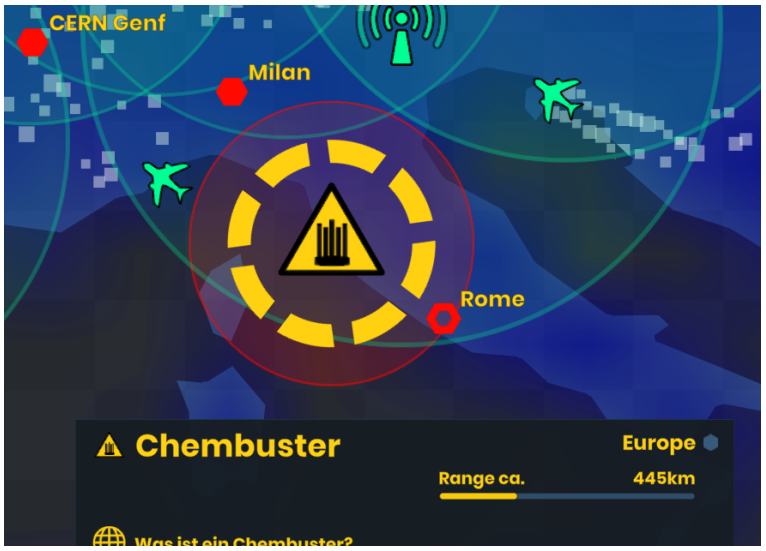
To reduce coverage of celebs and other enemies of the NWO, you need to place mobile phone towers near them. But beware of protests, they can damage your towers. So ask yourself: Is it really necessary to waste money to counter a hillbilly blogger in the backwoods of Alaska with fifty followers who are all related to him?

Lying Media

Mainstream Media is your friend when it come to cover large areas or destroy chembusters with negative energy. But beware awakened celebs! Fake News are quite vulnerable to the ramblings of celebs and take great damage.

Opponents

Chembuster



All kinds of awakened mystics use chembusters to disrupt your chemtrails. They consist of metal tubes turned skywards to project Orgon energy. They are however quite vulnerable to the negative energy projected by the lying media and take damage when they are in their zone of influence.

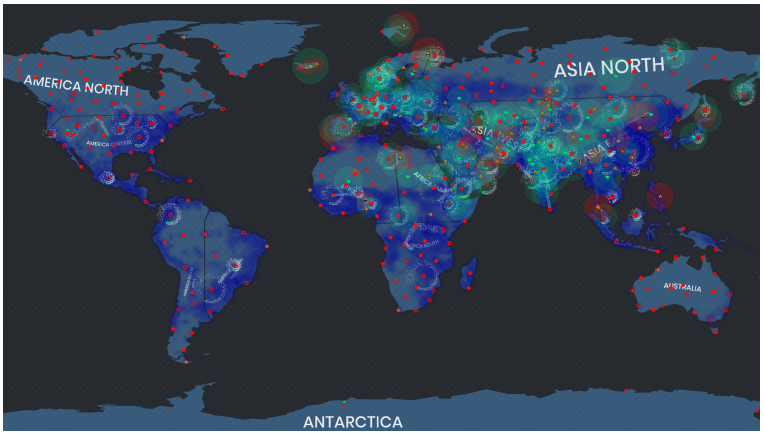
Angry Citizen Protests

Angry citizen protests are quite annoying and attack mobile phone towers. Sedate them by spraying chemtrails. People start to realise the error of their ways and their numbers dwindle until the protest dissolves.

Awakened Celebrities

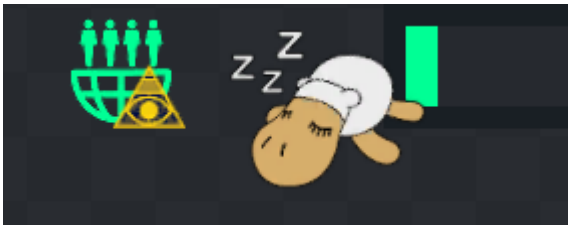
For years now celebrities of all kinds get involved into conspiracy theories and want to defy and destroy the NWO. Some of them radicalised themselves in only a few months. They use social media to villainize your mainstream media. Controlling their communication is the key to disrupt the spewing of their lies. Use mobile phone towers to do that.

Population Density



Your measures are the most effective where the population is densest. The darker the color of the map, the higher the population in that area.

Toggling Population Density Display



Clicking on the globe* toggles the display of the population density.

*Of course it's a globe! What did you think?!

Coverage

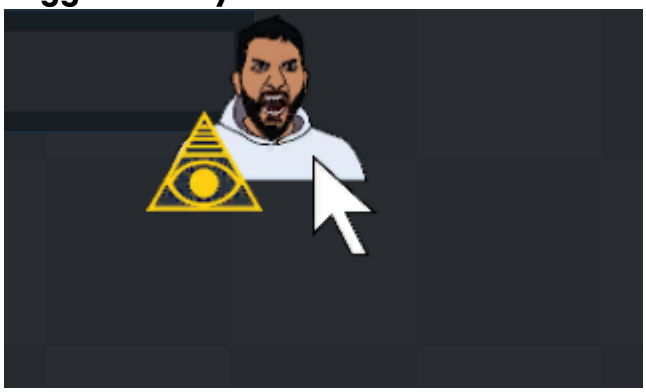
Coverage

The higher the covered landmass of your chemtrails and units, the higher the influence on your status.

Overlays

The Overlay-View highlights all grid squares influenced by chemtrails or units.

Toggle Overlay View



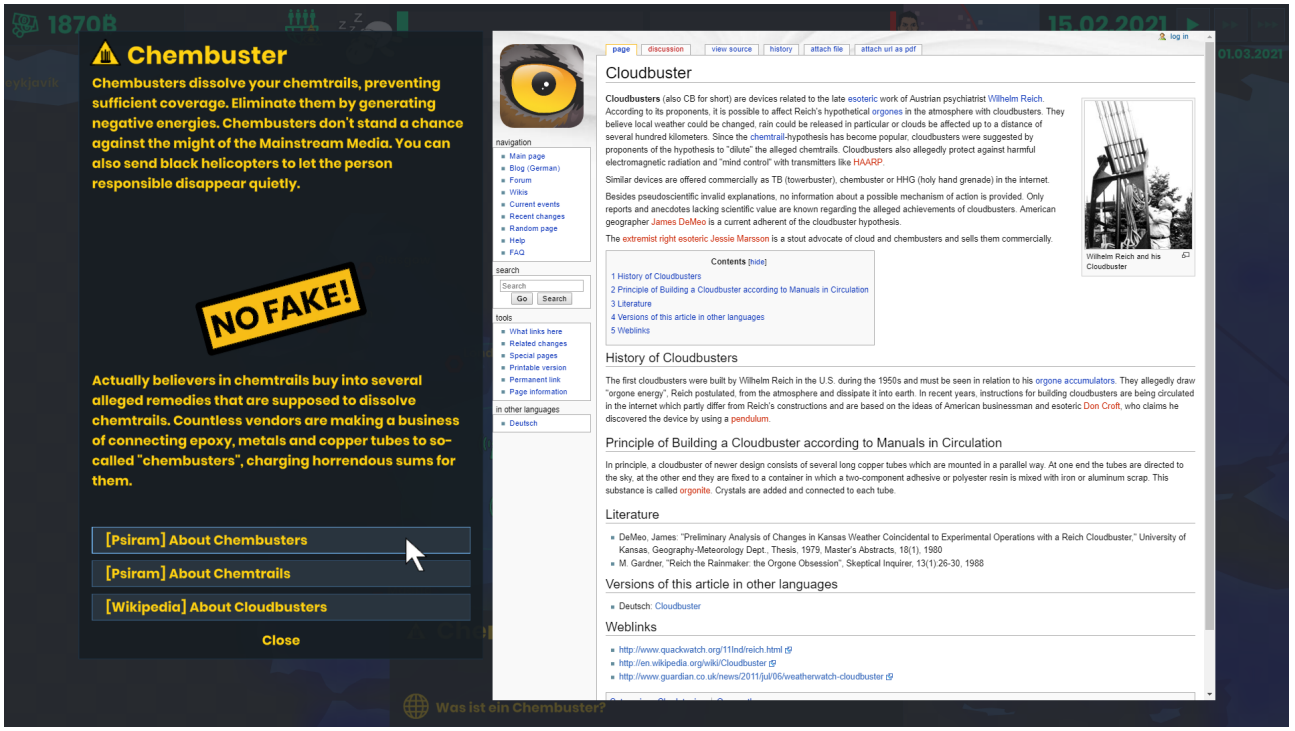
Click on the sleepsheep or the rambling celeb to toggle the overlay-view.

Rank and Promotion

As soon as you gain control over Europe, our reptilian overlords will reward you with your first promotion. Every promotions entails rewards such as a financial boost, or new units and airports. Be sure that the fight for the NWO is not only a reward in itself, but will be rewarded in worldly assets as well.

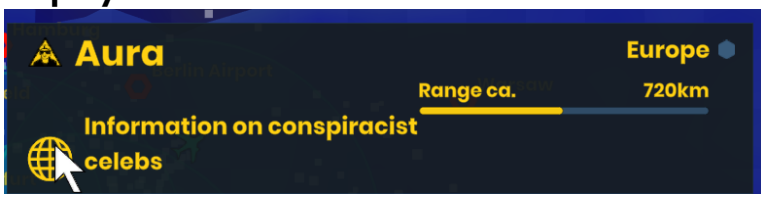
NWO Desinfo Portal

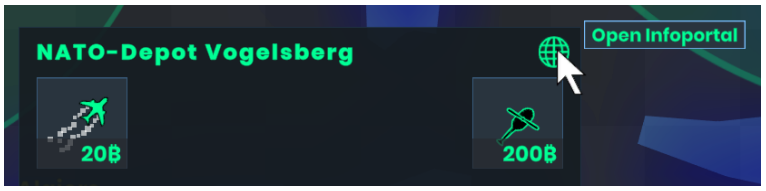
Overview

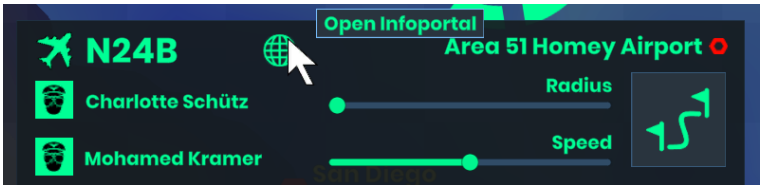


For the NWO Desinfo Portal you will need an active internet connection. Here our reptilian overlords provide all information necessary to fight the enemies of the NWO. You can find out how they work, how they persuade people and why their conspiracy theories are so successful.

Display Desinfo Portal







Whenever you see a globe* in the menu, you can click it and the Desinfo Portal will show you all kinds of information on the selected item.

*Yep, still a globe. Get over it!

Allergy Warning!
REPTRAILS may contain traces of swallowable infants.
