Adventurer's Notes

These notes will help any aspiring, new, adventurers to find as much information in Panom'Arah as possible and learn more about the gem-colored chests and their legendary content! First of all, our trusty librarian has some information about you. After that, our explorer will take the lead and share some adventuring information with you.

Lorebook Pages and a point of interest

The Lorebook is a key item that will be magically updated whenever someone learns or find new information about something. Where can one find information and update the Lorebook? Well, here is a detailed table, containing the whereabouts of each lorebook page.

Tiborea and its structure	Automatically given at the start
Unknown diary records	Found in the dungeon below the Monastery
The four magic crystals	Automatically given after the first cutscene with Demarchos
Grimm grove, the illustrous	Appears after finding three pieces of information, about a "magical forest", scattered all around Panom'Arah
Panom'Arahian religion	Automatically given after the first cutscene with Mother Talana in the Monastery
The flogian vampires	Found under the Floga Mines, after going down a hole
The Vertaxo ruins	Appears after finding five pieces of information, about Vertaxo, scattered in the ruins.

After you find all seven pages, you should visit the Keeper of Truth ghost in the Library of Begdala and acquire your reward! He may even have a new page to give to you!

Statue of Irnan: this statue is in the Witch's Mansion after you accept the quest from the blue haired lady in Hourafi Cottages. By interacting with it, you will learn something more about the Panom'Arahian religion. You will also be rewarded with 50xp.

Legendary Chests and their Keys

So, you may have come across some kind of gem-colored chest or key during your adventures. Each gem-colored chest needs its respective gem-colored key to be unlocked. Here is a table pinpointing each gem-colored chest's and key's place.

Sapphire Key	Held by a ghost in Cucunaria Forest
Sapphire Chest	Appears after energizing the mushrooms in Grimm Grove
Ruby Key	Contained in a chest in the Library of Begdala
Ruby Chest	Located in the Witch's Mansion after freeing the witch
Emerald Key	Found in the Telluspagus Well
Emerald Chest	Located in the Monastery dungeon
Topaz Key	Located inside the Ancient Fire Temple
Topaz Chest	Located on the top of the Telluspagus mountain. Use the red V pad.

These chests contain the legendary weapons; the most powerful weapons in Panom'Arah. That is the reason it is a bit difficult to be found and opened.

The magical red V pad

This magical pad can be used by adventurers who have defeated the Aeric Dragon in the Ancient Wind Temple and have interacted with the Fire Elemental Wisp in its lair, in the Ancient Fire Temple. After that, these pads can be used to propel the adventurer upwards and, thus, opening new passages and areas. These pads have been recorded and are presented in the table below.

Telluspagus	Northern part of the town
Telluspagus Well	Room with the healing spring
Ancient Wind Temple	Starting room
Library of Begdala, inside	Top right room
Vertaxo Ruins, puzzle area	Needed to fly downwards to the puzzle area to unlock the Vertaxo ruins entrance

Of course, there are more pads like these scattered throughout Panom'Arah, but since they mainly serve a minor role in the adventure, there is no need to be documented.

Runic Sorcery

Runic Sorcery can be used by Adriana, when she equips hammers. If she is equipped with gloves, she will not be able to use this type of spells. On the other hand, if she is equipped with gloves, she can use Witchcraft spells.

Runic Sorcery is a type of sorcery that draws power from the casters Maximum Magic Points, or Max MP for short. The higher the Max MP pool of the caster, the more potent Runic Sorcery spells become.

Adriana can teach herself Runic Sorcery spells by finding sigils, gems and other magically infused items. Krypsinos Statue rooms usually contain Runic Sorcery items and, thus, Adriana can learn more spells.

Runic Sorcery may seem very weak at first, but its potential is limitless.
