SALT LAKE CITY, UT
==========
Bearded Dragons is a lightning-fast indie brawler that explores identity politics and gender expression through the tongue-in-cheek battles and cash-grabbing antics of bearded drag queens. Players face off in quick-pickup, samurai-style combat, using a variety of attacks and mobility techniques to best their opponents. For every hit landed or smash/kill secured, cash tips rain from the sky, and the player with the most money at the end of the round takes the crown.
==========
