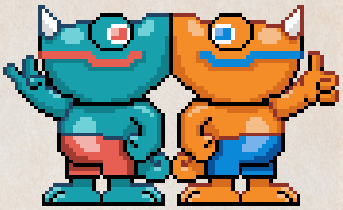
How to play "*Mighty Chameleon Brothers*"

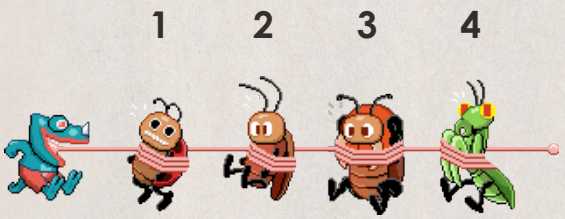
Thanks for checking out our exciting new video game!
First, you'll need to know the basics:



"Lash & Bash"
(Chameleon Bros. for life)

- The player controls the loveable cartoon chameleon "LASH" or his palette-swapped brother "BASH". (2-Player mode coming soon!)
- The objective of the game is to capture and defeat enemy insects with the chameleon's lengthy tongue. Enemies can be caught in a continuous chain by holding down the "ATTACK" button and quickly aiming the joystick at other near-by insects. The stage is cleared when all enemies have been defeated.

Capture Baddies!



Defeat with a tongue-attack!

- Try to capture as many enemies as possible in a single chain. Every subsequent enemy caught in a chain will cause an extra point of damage!
- Some insects have more than one hit point. Try to catch stronger enemies toward the end of your chain to cause the most damage!

CONTROLLING THE CHAMELEON
