

How to Play

The characters speak without using words. Each collection of symbols represents one spoken sentence. Once you understand what they're saying, click or tap anywhere on the screen to proceed to your reply choices. Click any speech bubble; it won't affect what options pop up.

When "SELECT" appears onscreen, choose between your options to make your reply. Left or right option, which seems right to you?
Your answers will determine which ending you see.

As conversation flows, you'll rise or fall in the characters' affections. Find out what happens when they don't like you at all, or like you with all their hearts.

The "MENU" button in the lower right-hand corner of the screen opens a list of options to choose from. Click it when you'd like to return to the title screen, save your game, skip dialogue, or adjust the game's settings. You can also go back to your last choice and redo it if you wish.

True Route

All routes branch off from when you all eat the largest cake. From there on, you can maximize or minimize favorability with the characters to see each of their unique endings.

To access the three main characters' routes, please try different combinations of choices until you rise or fall enough in their affections to be able to read their stories.

Once you have seen all three characters' endings, you will be able to reach the true ending and watch the final video. The following choices will lead you there:

- Left (Yes)
- Left (Yes)
- Left (Delicious)
- Left (Love)
- Right (No)
