2 

The number of love potions the player currently has.

3 

The amount of gold the player currently has.

4 
Technology Section.

5 
Section with blocked priestesses.

6 
Section with wives.

7 

Button to build a thunder tower.

8 

Button to build a watchtower.

9 

Button to build a freezing tower.

10 Spell Casting Buttons. The button on the left is for casting Luxuria's wrath spell. The button on the right is the punishment spell of heaven.

Buildings on the Battle Map

1 

Temple of love. Hover your mouse over the temple and left click to get a love potion. The main goal of your enemies is to destroy the temple of love. If the temple's HP drops to zero, you will lose.

2 

Portal for summoning spirits of love. Automatically summons love spirits if the limit allows.

3 

Fountain of Love. When the counter is full, a bottle is created with the amount of love potion indicated on it. The bottle can be picked up by clicking the left mouse button, after which the bottle will begin filling with a love potion from the fountain again.

4 

Drilling rig. Automatically extract love potions. Maintenance costs 1 gold coin every 20 seconds.

5 
Market. A market automatically sells love potions to get gold coins. 1 gold = 10 love potions.

6 

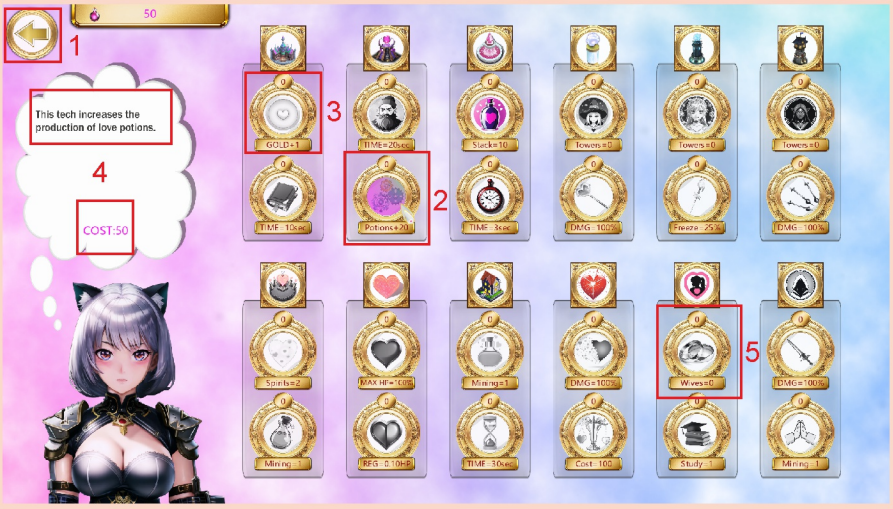
House of Priestesses. Automatically produces love potions. Production depends on the number of rescued priestesses and learnt technology.

7 

Ruin. This is the place where you can build any of the three defense towers.

Place the cursor on the ruins and click the left mouse button. After that the ruins will light up in pink colour. Then select the tower you want to build from the interface and click the left mouse button.

Technology Section



In this section, all the technologies available for study are presented.

1 

Hover your mouse cursor and left-click to return to the battle map.

2 

Technologies for which you have enough resources will be highlighted in colour when you hover over them.

3 

Technologies for which there are insufficient resources will be monochrome in colour.

4 

When you hover your mouse over a technology, you can read its description and find out the cost of learning a technology to improve it and take it to the next level.

5 

This technology will only become available after saving at least one High Priestess.

Section with Captive Priestesses

Priestesses are available in this section to unlock at a specific location.

1 

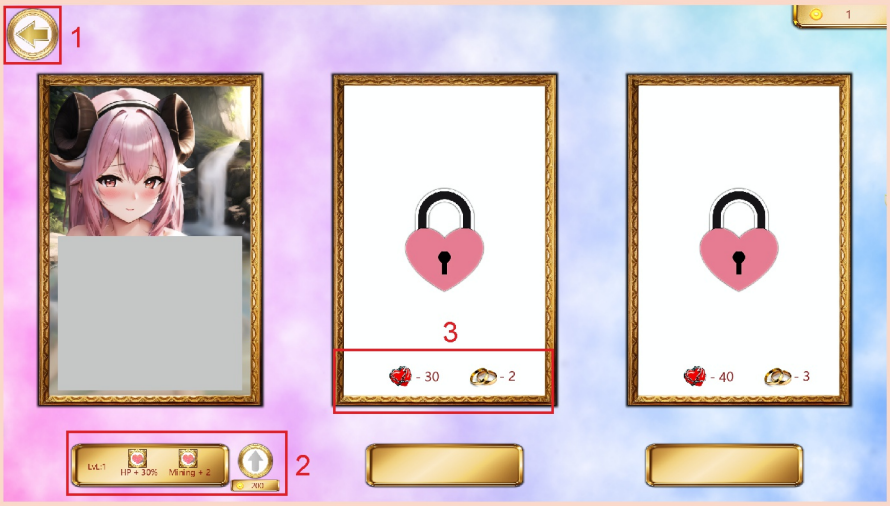
Hover your mouse cursor and left-click to return to the battle map.

2 

If you have enough resources, move your mouse cursor and left click to release (unlock) the priestess.

3 
A blocked image of a priestess. Once the priestess is released, her image will be unlocked.

Section with Wives



This section contains the high priestesses you have taken as wives.

1 

Hover your mouse cursor and left-click to return to the battle map.

2 

Here you can find information about your wife's bonuses, her level and the upgrade button with cost. If you have researched technology and enough gold, you can level up each of your wives to level 5.

3 
Here are the requirements you need to fulfil to unlock your wife.

Combat Mechanics

Your main objective is to defend the temple of love located in the centre of the location for as long as possible and get enough resources to free all the love priestesses in each of the 4 levels.
You can use the following tools to achieve this goal:

1 

Hover your mouse over an enemy and click the left mouse button to attack the enemy.

2 

Build defense towers to automate your defense.

3 
Use two powerful spells to destroy your enemies. The second spell (heavenly punishment) is unlocked after marrying Archmage Yara.
