Troubleshooting

Load saved game - Start new game, load into apartment, press F5, choose load game option, wait till after loading screen, exit save game menu F5 to remove "Please Wait" message.

Lower frame rates over time - Caused by loading maps repeatedly increases ram use. Best solution is to save game, exit game to Windows, restart new game, then load saved game.

Did not receive items - If your inventory is full, you will not receive new items. You should transfer extra weapons and unimportant items to storage (briefcase).

Can't use item(s) - Items need to be placed in an inventory slot to use. If the item is in inventory slot, press F10 and choose "Unlock Movement" and or "Unlock Interaction" option and try to use the item again.

Can't shoot weapon(s) - weapons will only shoot when mouse cursor icon is placed on attackable object and Left mouse button is pressed. Attackable objects will turn mouse cursor icon into red crosshair.

If crosshair is red and the weapon won't fire, there is either no ammo or ammo is still in ammo box which you need to right mouse button click on ammo boxes to unpack. ammo boxes and ammo must be in inventory to use an unbox

Weapons must be placed in "Right Hand" slot next to Player avatar in equipment window. Shooting Gallery map has help videos on wall to show how to equip weapon and unbox ammo.

Can't use Meds, Food, or Drink - make sure item is in inventory slot, place mouse cursor on item and press right mouse button to use.

You can also press "3" to toggle quick slot and drag item to quickslot, close inventory and press "3" until quick slots are on screen and click on item with (LMB) left mouse button (once) to use item.

Can't buy anything - In game currency is required to make purchases and you need to stand on "X" or stand next to, facing register LMB left mouse button click on register to bring up item purchase menu.

All Other issues - You can press F10 and try any of the top (6) options to fix an issue. If issue is not resolved, you should save game and follow the "Load saved game" instructions. If still not resolved, report problem to the games forums and/or other forms of contact.
