- Gameplay Summary
  - MiniBall Hockey is a form of hockey that incorporates a smaller rink and a small ball, rather than a puck.
  - In order to enter a game through the simulation, you must press the “Next Game” button, followed by the “Play Game” button that will appear.
  - Once you are loaded into the Game Frame, you will be spawned on the bench if you are a Skater or backup Goalie for the game.
  - There are 3 periods that are 5:00 in length. If an Overtime period is needed, Line 1 players stay out until a goal is scored.
  - If you are a Line 1 Skater, your shifts are from 5:00 - 3:00. Line 2 is 3:00 - 1:00. Line 3 is 1:00 - 0:00, per period.
  - There are no penalties, no offsides, and no icings in MiniBall Hockey
  - If you play a game and win, you earn 5 Halt Coins and 7 Halt Coins if it’s a playoff win. If you lose, you still collect 2 Halt Coins.
  - Halt Coins can be used to upgrade your players attributes under the Settings Tab!
  - If you wish to get in contact with the Community to get detailed updates or to just ask questions, join the discord! - https://discord.gg/t9qWtRZ
