
📘 Cave Startup —

Player's Guide

Welcome!

You are the first entrepreneur of the Stone Age!

Plant gardens, harvest crops, find useful resources, catch rabbits, trade with your fellow tribesmen and overseas merchants. Develop your own startup among prehistoric people. Overcome difficulties, find a way to interact with the cunning and greedy Shaman, win the heart of the Shaman's daughter, and become a progressive and successful entrepreneur.

Use your wits to trade and survive in the primitive world.

🏗️ Tips for getting started

1. First, plant gardens and start harvesting.

2. Find useful resources scattered around your settlement. Collect some stone and wood to create your first buildings.

3. Build a canopy over your trading stall — this will increase the number of buyers in bad weather.

4. Build fences for your gardens, organize irrigation, and install a scarecrow to protect your crops.

5. Follow the advice of the Voice of the Ancestors, who will guide you on the path to building your business with the knowledge and wisdom of the elders.

Installation and launch

1. Download the game from Steam and wait for the installation to complete.
2. Important: the installation path must contain only Latin characters (for example, C:\Games\ CavemanStartup).

Saving

The game automatically saves your progress when you exit to the Menu.
