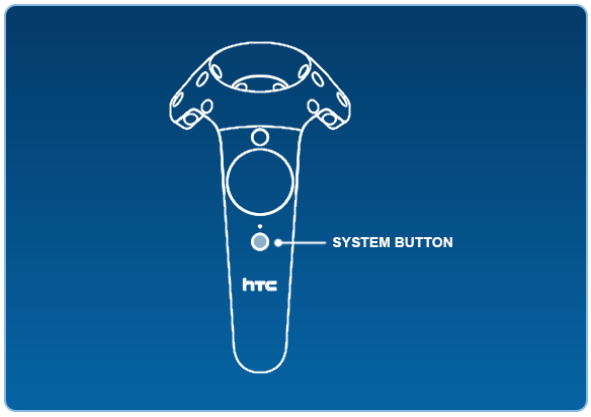
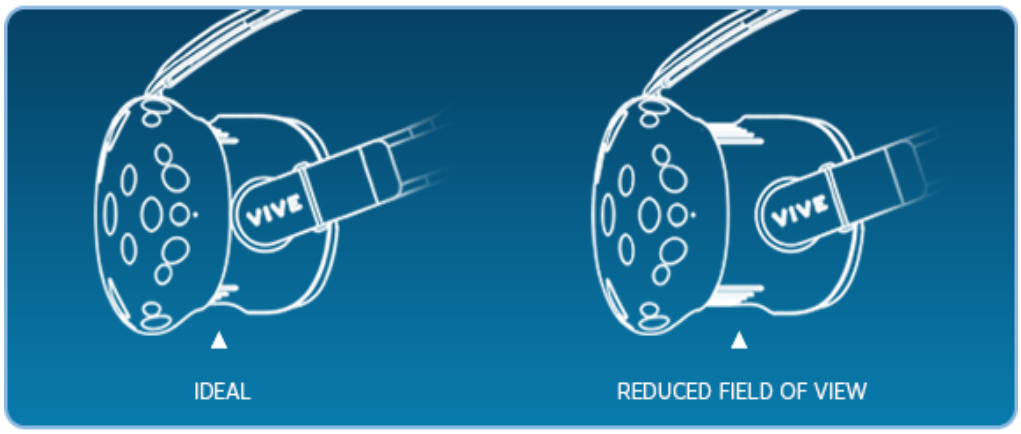
How To Play Disc Golf VR

1.) Power on Controllers:
Power on your Controllers by pressing the System Button (the button below the trackpad on each controller).



2.) Launch Disc Golf VR

3.) Get your Headset Situated:
Adjust the top and side straps of your Vive so that it fits securely and comfortably.



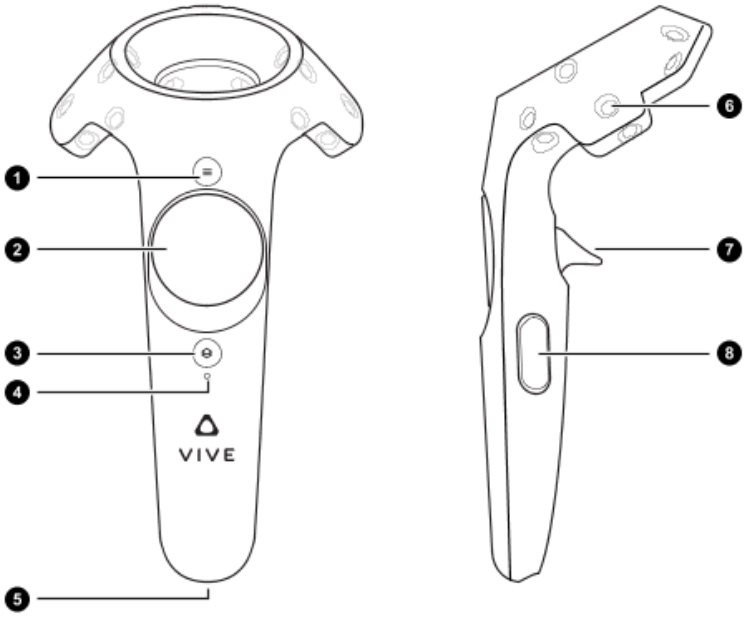
4.) Pick controllers up of the ground and take a look around:
Around you is the start of the Golf Course, you will see different buttons to select your course on your left.

5.) There are 3 different VR Golf courses for you to select from.
The course selections are 3 holes, 5 holes, and 7 holes. Each course gets more difficult the more you play. So select the one you have the time to play.

6.) Once you select your Golf Course and click start game, you will be teleported to hole 1 of the course that you selected.

How To Play Disc Golf VR

7.) To your right, you will see the stockpile of frisbees you can grab from. Go ahead and pick up a frisbee by bringing the controller into the frisbee with your hand. And pulling the trigger button on the back of the vive's controller. Number 7 on the included picture



8.) Once you have the frisbee in your hand keep holding the trigger button on the controller and move the controller around the frisbee will be attached to your hand and it will follow all of your actions.

9.) Take aim at the and move your controller like you are throwing the frisbee releasing the trigger button at the end of your throw.

10.) You will have 6 attempts each hole. So if you miss there will be another frisbee to your left for you to try again.

11.) Once you complete a hole the game will save the amounts of frisbees thrown at the hole and you will be taken to the next hole in the course that you are playing.

12.) Play through all the holes in your course.

13.) Once you reach the end of your course you will see your score for each hole that you played and you will be taken back to the starting hole.

14.) You can select a different course to play. Or exit out of the game.
