The Augury House Gallery

The Augury House Gallery is a artist-founded, artist-run studio, exhibition and performance space providing critical contemporary art experiences within a digital environment. The artists and professionals behind The Augury House Gallery are committed to exhibiting experimental works produced by a diversity of practitioners.

For the Month of November, the Augury House Gallery teases an upcoming production channel called AUGURY HOUSE DISTRIBUTION. This new channel will be for the production and release of specially-made new media and film projects that exist independently from the core Augury House programming. The inagural AUGURY HOUSE DISTRIBUTION release will feature Kevin Yatsu's new media project called POND AND SCUM which mines personal histories through landscape contemplation and research.

The Chamber of Affirmations is a collaborative space that welcomes audio, video, and writing of positive affirmations.

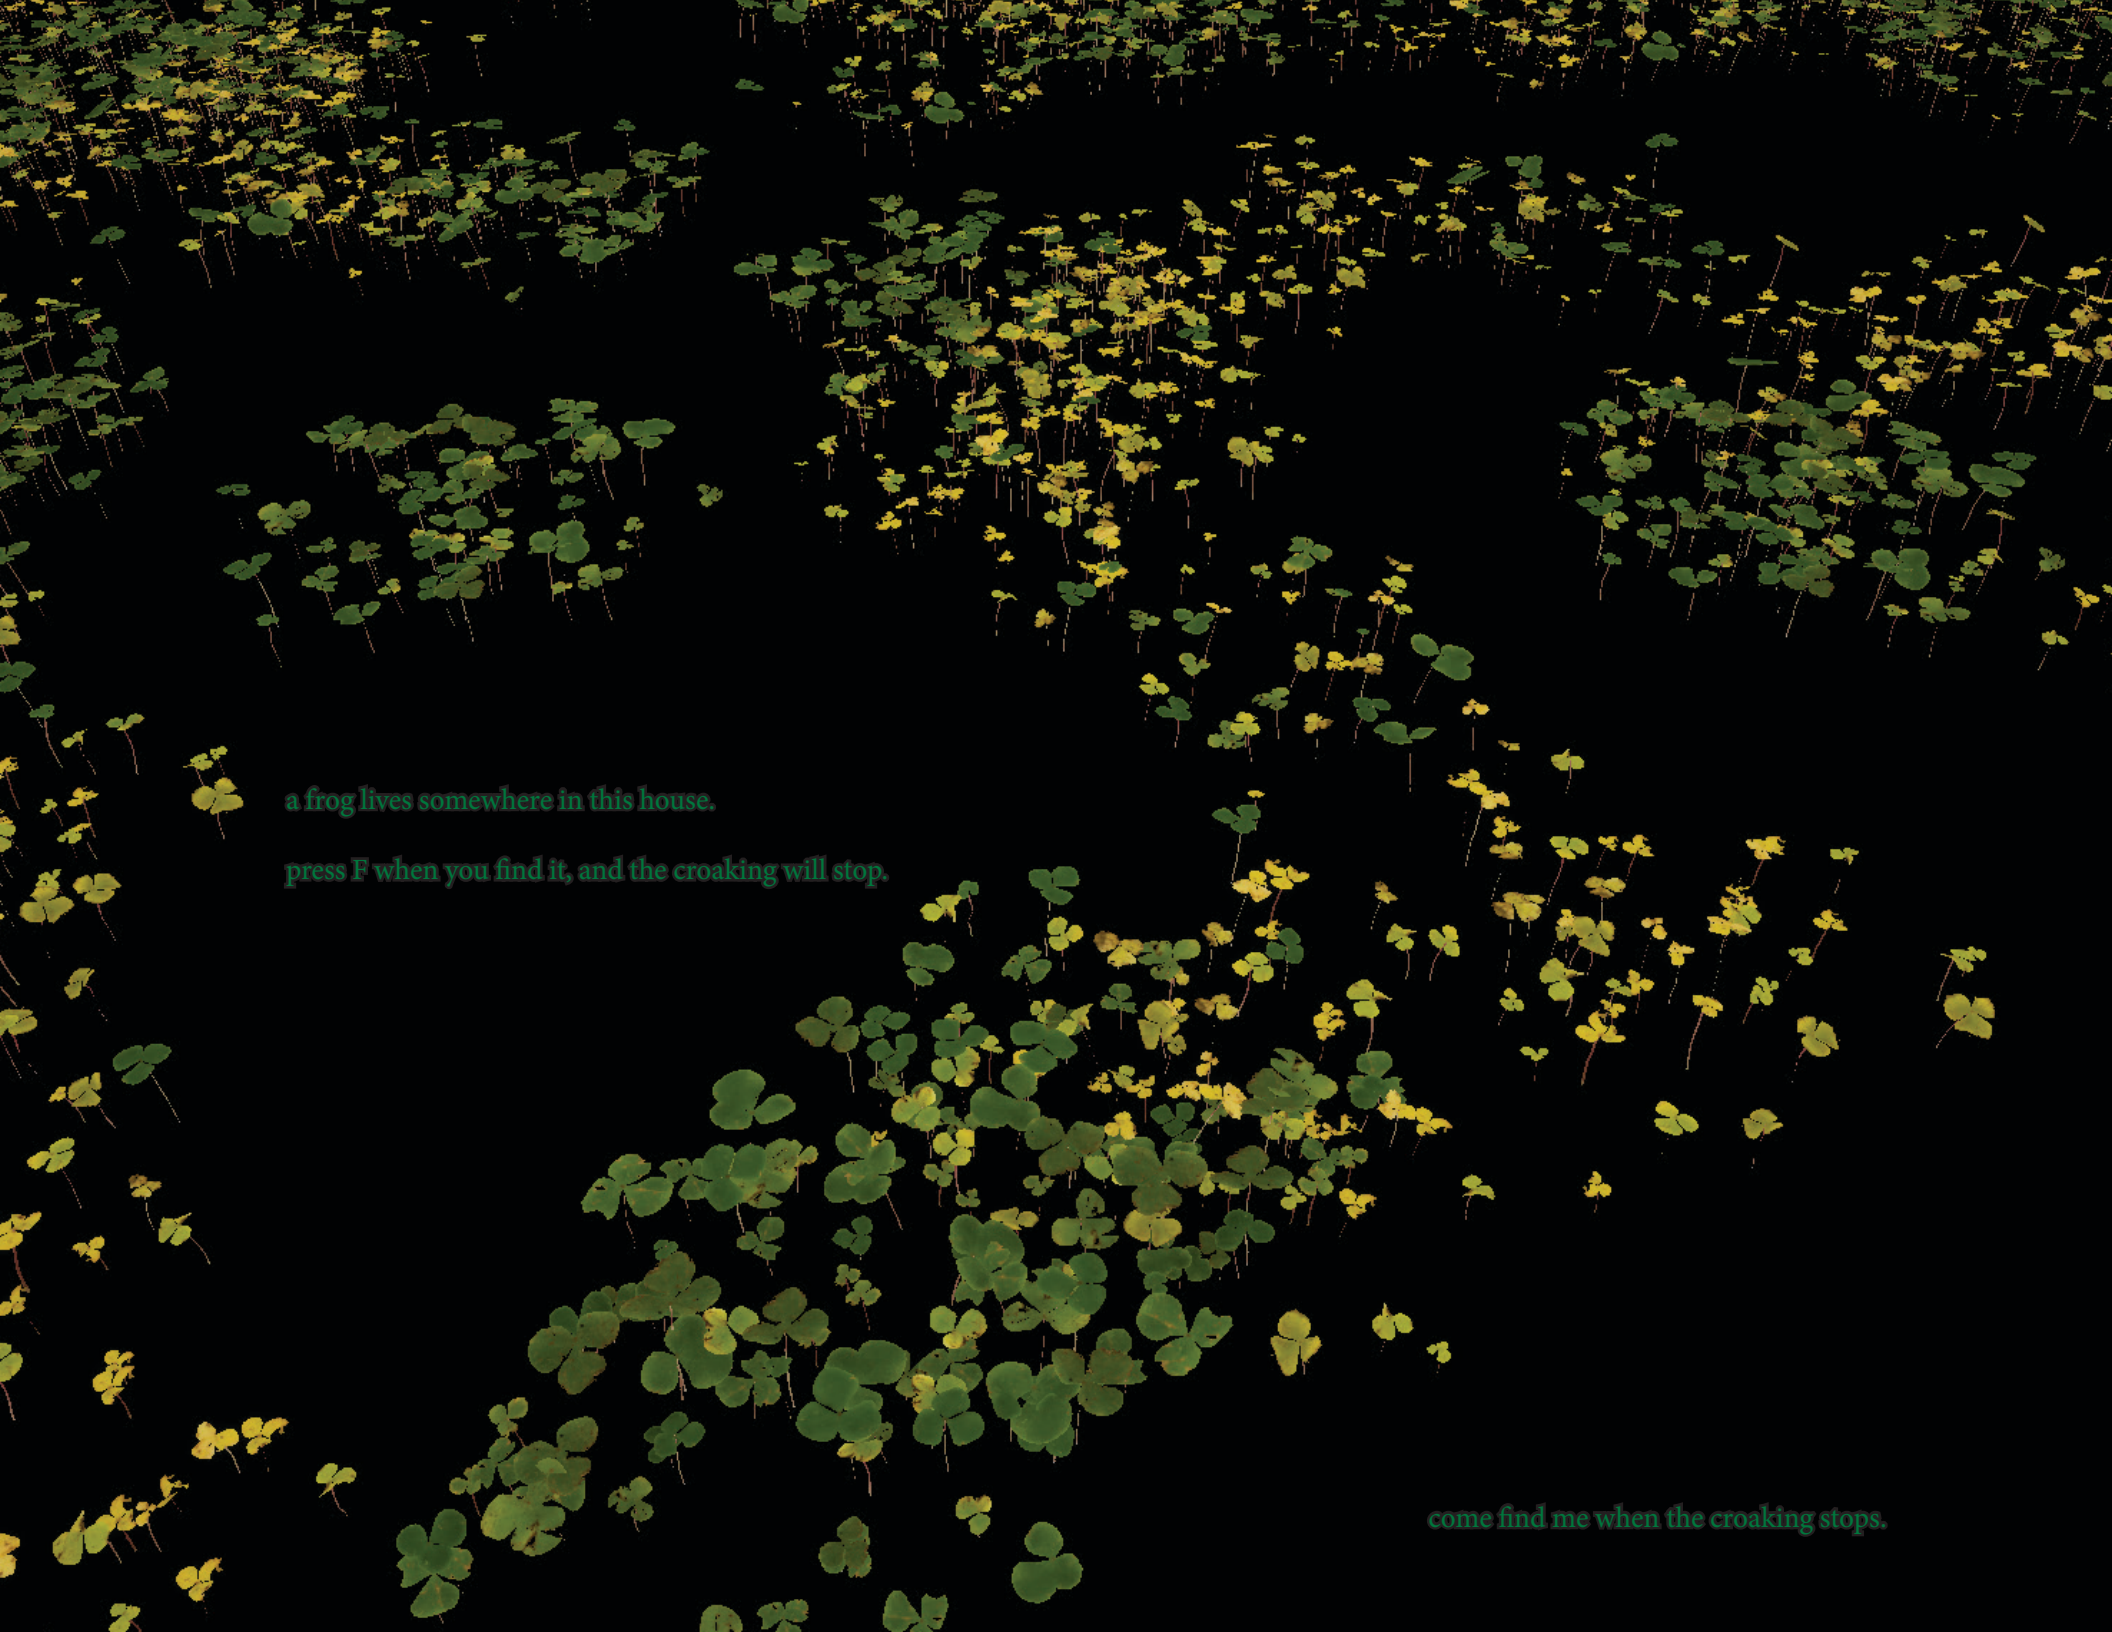

If you'd like to submit to the Chamber of Affirmations, please send your media to augury.house@gmail.com with "Affirmations" in the subject line.
