Hi there, thanks for buying Psychosis! I would love to hear what you think about the
game, so please leave a comment in the Discord server, or post a Steam review if you
feel inclined! Thank you!

If you would like to download the soundtrack, you can do so on Steam.

For support or feedback, please join the Discord server at https://discord.gg/RVuPGJdke8
or e-mail us at contact@psychosisgame.com

NOTES

- Press F10 during gameplay to view controls list.
- The game is translated into 13 different languages, which can be changed in the Game Options.
- Story progress can be reset via the Game Options menu.
- All settings can be reset to defaults by deleting AppData\Local\Psychosis\Saved\Config and
  AppData\Local\Psychosis\Saved\SaveGames\CustomGameUserSettings.sav
- If you have issues running the game, try running the UE4 prerequisites setup file located
  at Engine\Extras\Redist\en-us\UE4PrereqSetup_x64.exe
