My name is Daniel Pintado, I am bilingual and video game creator since Unreal Engine 3.

https://www.youtube.com/channel/UC0TrwpVAW7G5PEXVZfgOoxg

If you enjoy the videos I make and want to support me, Ko-fi is the easiest way to do it. You can commit as much as you want for as long as you want and all your help will be to continue creating video games and videos.

Don't feel obligated to commit if you don't have funds to spare. Your opinions, likes and comments on my videos alr eady mean a lot to me and I cannot and will not ask you to go beyond your means.
If still you want to help me or support me, you can contact me on the Discord page. Any help and support will be gre atly appreciated.

100% of the money raised from YouTube, Ko-fi and sponsorships, it will be for the creation of video games and for the YouTube channel.
