a) Installation

Installation is fairly easy on steam which is the only platform the game is available for currently
Just follow the easy installation steps
Downloading the game time may vary

Installation on Steam Deck:
We came across a few unreal visual studio + install screens similar to windows installs when installing for the steam deck. These are completely normal and can although they have to be clicked on the screen but the touch screen works beautifully for this.

b) Game Description

A battle platform fighter for up to 1-4 players in LOC and LAN or CPU modes. Mission is to regain control over the ark of the convenient. Steal back the treasure from the evil Hansoon who controls the nights templar in the spirit of the temple of the kings in the most import tournament of humanity!
TITLE: Street's Disciple
GENRE: Action, Indie, Massively Multiplayer
DEVELOPER: Frog Invasion Games
PUBLISHER: Frog Invasion Games
RELEASE DATE: Feb 28, 2023

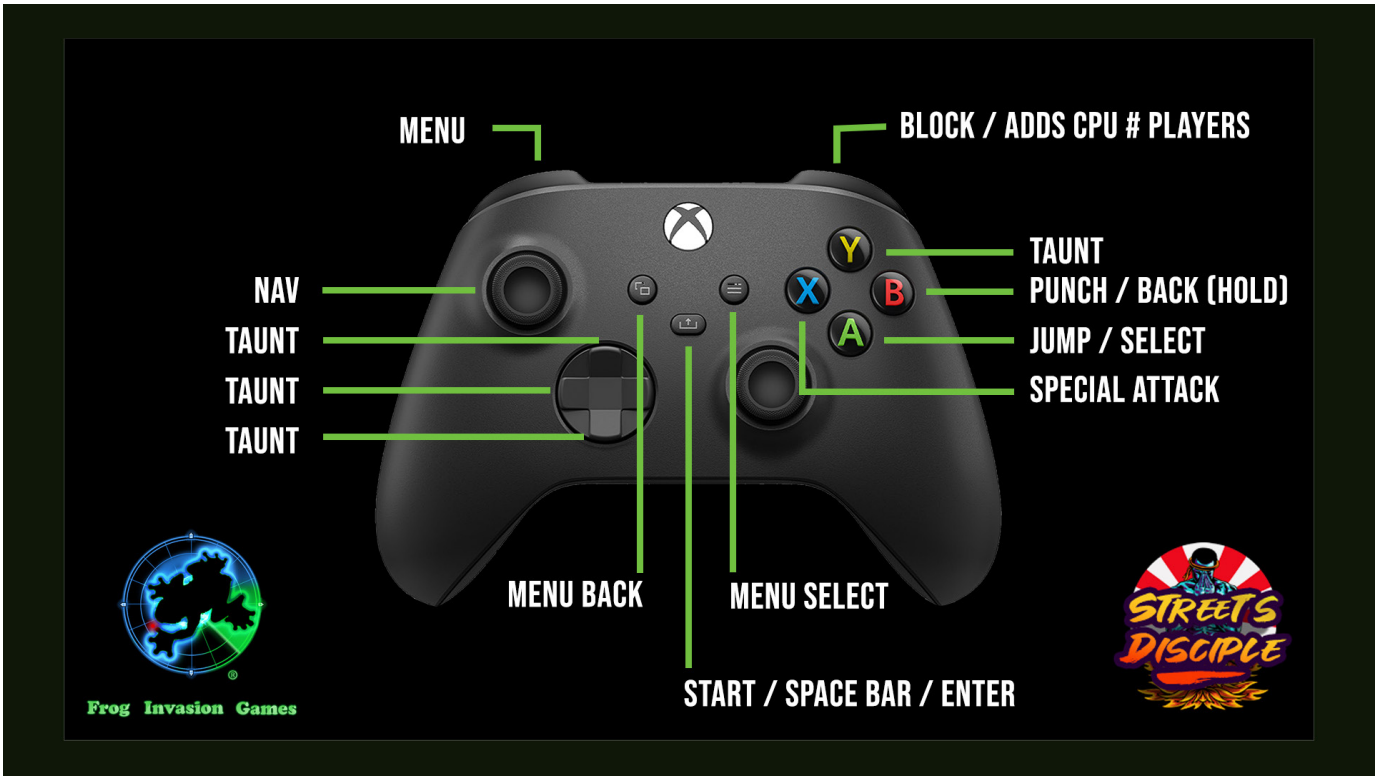

c) How to Play

The game is a battle platform fighter for up to 1-4 players in LOC and LAN or CPU modes. Meanig if you have 4 people wanting to play together you can in this game, there are also LAN players avaiable on server or you can add up to 3 CPU computer controlled players to play with.

See next section on controls to be shown how to play....

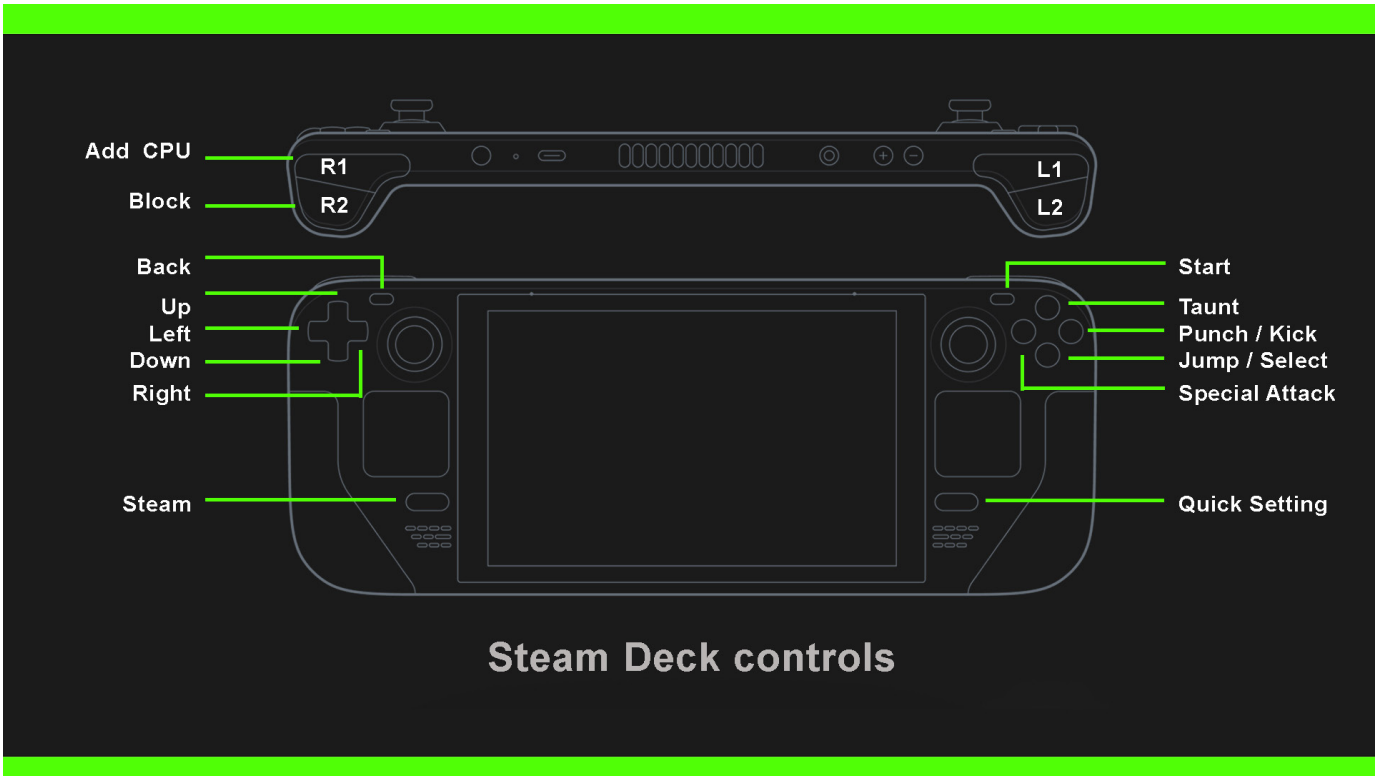

d) Controls

First off the game be be manged on keyboard but you need some type of contoller to play , basic menu selection can be made with a keyboard and mouse, gamepad, or contoller, steam deck. The main game will only run on controller. Combos can be made by movments, flips, jumps, and action buttons.
A more detailed list and picture of the mapped action buttons are below...

e) Steam Deck Controls

First off the game be be manged on keyboard. When played on steam deck. the game will run very simlar as on the controller. Combos can be made by movments, flips, jumps, and action buttons.
A more detailed list and picture of the mapped action buttons are below...

f) FYI (For your information)

The game runs great on steam deck.

The only issue that we have run into is that when in a match right now you can't exit back to the menu and when the match is finished you cant replay the game, you have to re launch the game from steam. Both will be fixed soon, caused they are kind of essential to smooth game play.

g) Company Contact Information

The Company that make Street's Disciple is Frog Invasion Games
