The Pharaoh's Labyrinth

version 1.0

Table of Contents

Instructions	2
Keyboard Control	4
Tilt Five Wand Control	5
Troubleshoot	6

Instructions

On this virtual board game you will find 6 hidden puzzles. Spaces marked with the pharaoh eye are where you will find them. You must complete all 6 puzzles in order to unlock the pyramid door. Be the first one to solve all 6 puzzles and make it to the entrance of the pyramid to win.

The Pharaoh's Labyrinth can be played in single player or multiplayer. In order to play multiplayer all players must have a stable internet connection and not lose connection during the game. Local multiplayer is available for Tilt Five users connecting with multiple glasses and wands.

Instructions

To play online multiplayer, you must first create a room and then have other players join it.

For local multiplayer all players must have their own set of tilt five glasses and wand&must all connect to same board.

Currently supports 1-4 players.

Take turns rolling your dice and click on the space you would like to move to.

Your player will have a green indicator around them when it is your turn.
