Child making, how to give birth to ainoko

let's get creampie

If the date passes with semen in the uterus, pregnancy is possible.
Semen is absorbed and reset every day, so if you don't get pregnant, you will have to cum again.
You can't get pregnant with semen other than monsters.

menstrual cycle

Girls have a menstrual cycle, and there are times when they are fertile and times when they are not.
Pregnancy probability increases if vaginal cum shot is performed at a time when the probability of pregnancy is high.
There are items that increase the chances of getting pregnant, so use them wisely.

childbirth

When you are of childbearing age, you can give birth by talking to a midwife.

It is important to be aware that there is a risk of miscarriage after the age limit.
Also, if too many days have passed since the optimal age, she will be forced to have a miscarriage.

Sensitivity and Ainoko Strength

The higher the sensitivity of the berries, the stronger the Ainoko will be born. Also the selling price will be higher.

Sale of Ainoko

By talking to the Ainoko buyers in each town, you can select and sell Ainoko from the Ainoko set in your party.
The unit price of the Ainoko itself, the Ainoko's talent, battle history, etc. are taken into account when making an assessment.
