

CATCLICK Game Guide

Welcome to CATCLICK! This guide will help you understand the basic controls and features of the game.

Basic Controls

Music Player

Play/Pause Button: Press this button to start or pause the music.

Next Button: Switches to the next track.

Stop Button: Stops the music playback.

Game Modes

Relax Mode: In this mode, you can enjoy a relaxing gameplay experience as you search for kittens. Enjoy the calming music and meditative gameplay as you find the kittens.

Bad Cats Mode: In this mode, you need to find all the bad cats before they infect the good kittens. This mode adds complexity with time limits and additional challenges.

Switching to Menu

Press the "Escape" key on your keyboard to open the main game menu. Here you can pause the game, adjust settings, view the leaderboard, and save/load the game.

Timer

In Bad Cats Mode, the sidebar will show the bad cats you need to find on the map. Finding the bad cats in the correct order adds time to the timer. If you click on them out of order, they will reduce your time. You can only click on the good cats after finding all the bad cats in any order. Clicking on good cats before finding all the bad cats will also reduce the timer. When the timer runs out, the game will be lost.

Using the Magnifier

Press the right mouse button to activate the magnifier. The magnifier helps you search for cats on the map by enlarging the area around the cursor, making it easier to find them.

Game Modes Description

Relax Mode

Objective: Find all the kittens in the level.

Features:

No time limit.

Ability to save your progress at any time.

Calming music and serene gameplay.

Bad Cats Mode

Objective: Find all the bad cats before time runs out.
