Explanation of each gauge

- 1 health gauge** If it reaches zero, you lose.
- 2 stamina gauge** It will decrease little by little when you use special moves/sword attacks etc.
It will recover over time.
- 3 accelerator gauge** There is an explanation on the next page.
- 4 Super Special Move Gauge** It increases when you hit an attack.
When the gauge is full, you can unleash a super special move.

About the stamina gauge

When you take damage from a normal attack, your health gauge will turn white.

If you don't get hit by a special move or super special move while the gauge is white, only the white portion will gradually recover.

About the Stamina Gauge

The orange bar is your stamina gauge.

It recovers over time and by attacking your opponent. Instead, your super special move gauge fills up, so keep dashing!

Game description

This game requires you to attack and keep moving forward

accelerator gauge

Perform the action that causes the arrow next to your character to rise (e.g., attack, move forward, etc.).

While rising, it has effects such as making it easier to fill the super special move gauge and quicker stamina recovery.

If you take negative actions, the arrow will go down and your health gauge will gradually decrease.

REKKA

RETSUDOU

"Wait!"

An angry voice rang out, and a group of tough-looking thugs came out.

"What's a cute-faced brat barking at a puny gambling den?

"I won at gambling, so I'm just going home..."

"That's not how it goes!

It's a given that outsiders lose in our territory!"

"Shut up, stop complaining... Come at me with all your might!"

"What the hell!" The moment the sword cut through the air, people were cut down in an instant.

"Cooper!" I called out to the cowering coffin maker's owner.

"Hey!" the owner's voice rang out loudly with a fawning smile.

"One coffin... no, maybe three..."

The old samurai disappeared down a back alley from the dust-swirling street.

"I'm qualified..."

I heard someone's voice, and a distorted space spread out before me.

"This thing is strange...but it looks like it's going to be interesting."

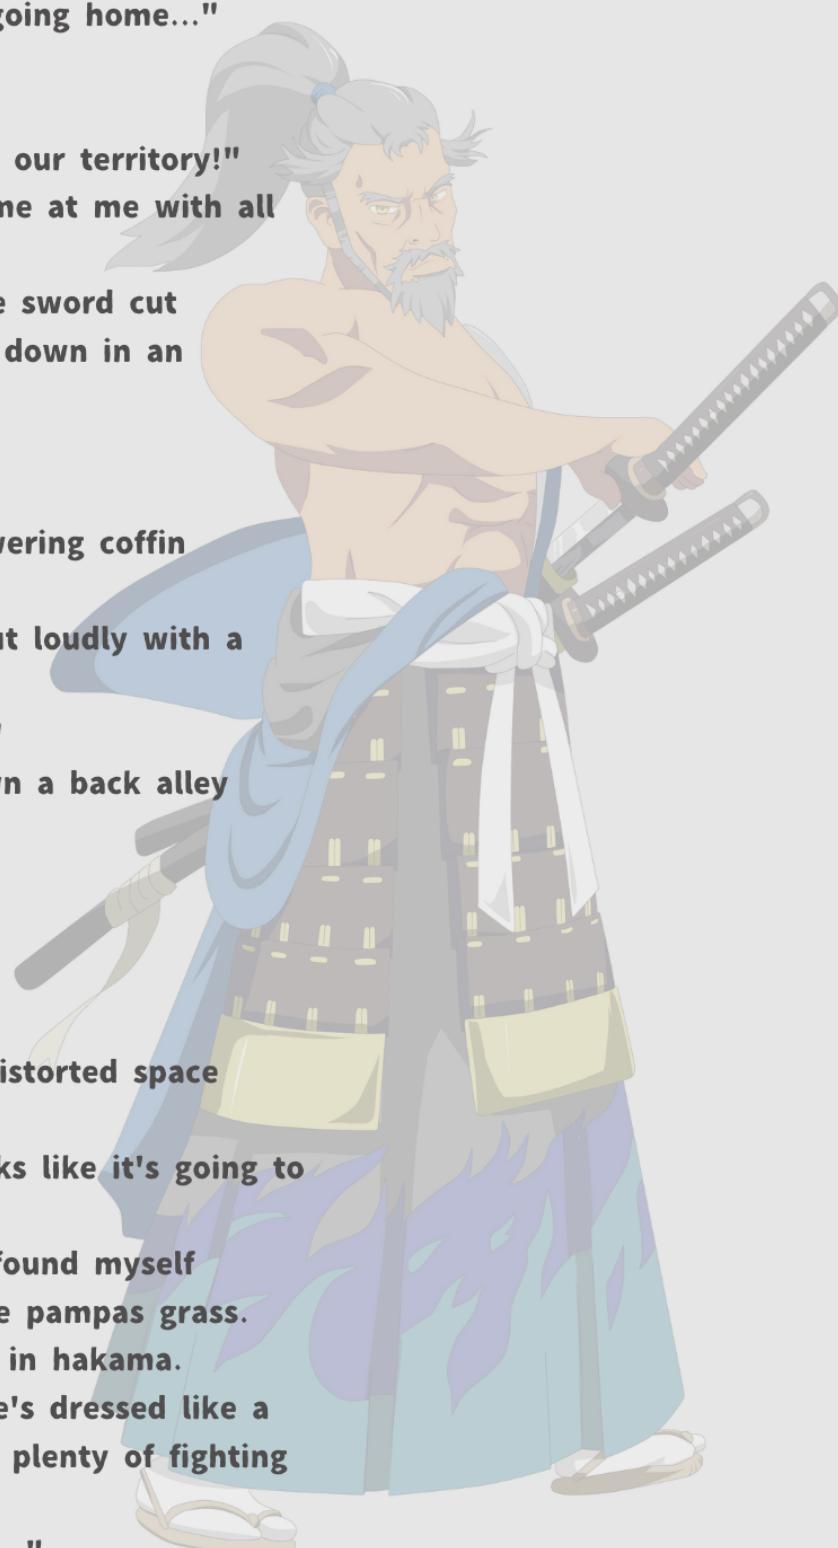

And with that, I jumped in, and found myself surrounded by a field of Japanese pampas grass.

There stood a female swordsman in hakama.

"Even though she's a woman, she's dressed like a samurai. Does that mean she has plenty of fighting spirit?"

This is starting to get interesting..."

prologue

TOMOE SAE

prologue

It's beautiful weather again today!
I ate five bean buns this morning♪
"Good morning!"
While cheerfully walking to school, greeted by many friends,
a strange hole suddenly appears in the sky.

"Everyone, evacuate!"

As I was evacuating the students inside the school building,
my friend pointed behind me and shouted.
"Sae! There's something over there!"

(That thing in the center of that hole... what's it doing?)

Sae notices this and climbs onto the wall.
Using a telephone pole as a foothold, she approaches the thing in the center of the hole.

"Found!"

She's sucked into the light, accompanied by a mysterious voice.

Suddenly, he finds himself surrounded by fields of Japanese pampas grass.

Before him is a female swordsman wearing a Taisho-era kimono.

"Are you my next opponent?"

A sudden battle begins...

HIYODORI OUKA prologue

Pursuing the dimensional cult that's causing trouble
in the streets,
Will I be able to eat Castilla on time today too...?

Following up on information about a series of
kidnappings, Ouka arrives at the cult's hideout.
Before her is the cult leader, who resembles an old
woman with a hood pulled down over her eyes.
"Demon Slayer: Divine Punishment!"

She attacks the guru head-on, but he is nowhere to
be seen and her sword cuts through the air.

"If you've made it this far, you're qualified. Follow
me."

The cult leader muttered, and entered the hideout.

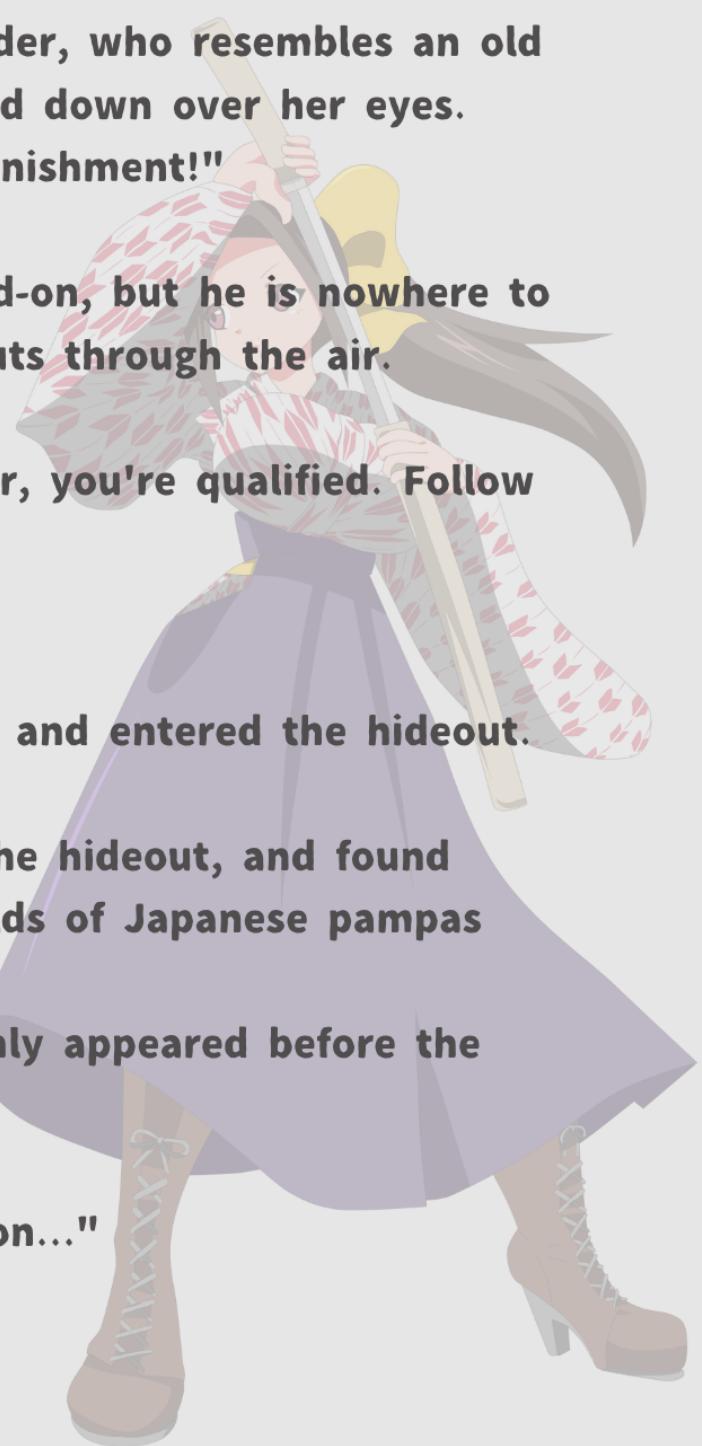

"Wait!"

Ouka followed him into the hideout, and found
herself surrounded by fields of Japanese pampas
grass.

An old swordsman suddenly appeared before the
bewildered Sakura.

"What on earth is going on..."

Fates will now intersect...

FERARIA prologue

I wonder what was going on so late at night, but there was something vaguely moving there...

Hey, uncle, is it true that there are strong people around here?

I found the remains of the battlefield, but they weren't there.

A young girl speaks to me.

No! That place is cursed. I can't teach you anything.

Don't say that. Even this?

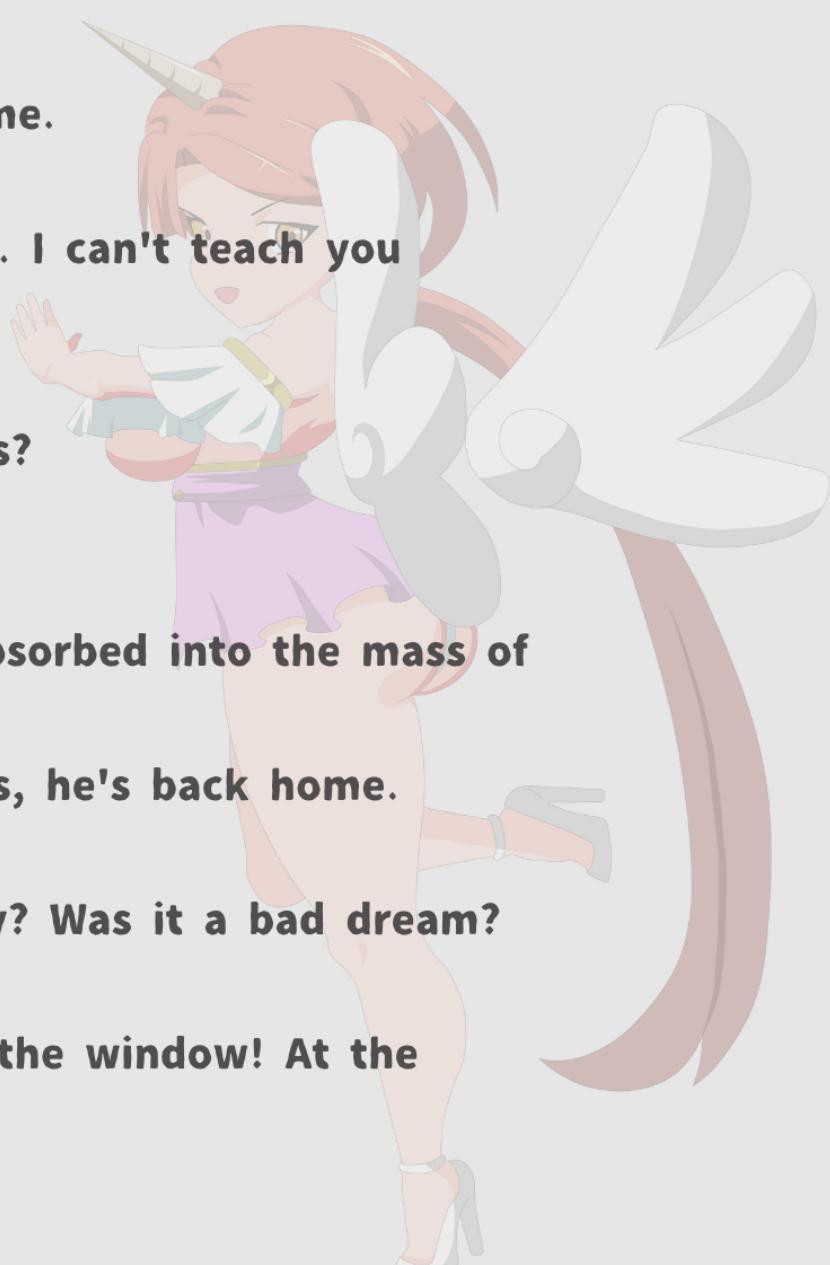

Ah, ah!

The man is helplessly absorbed into the mass of desire before him.

The next thing he knows, he's back home.

What was that yesterday? Was it a bad dream?

No, no! What's that! At the window! At the window!

GYAVADARUGA

prologue

In the darkness of the deep sea, at the bottom of the ocean, where hydrothermal vents and magma boil, a world where life has been eradicated, an impossible giant body wriggled and roared.

I am the strongest being! I am the one who stands at the pinnacle of all living things. I fought for the thrill of exchanging blows with the strong, but there is no one left in this world I can fight.

He devours the orca he dragged into the depths of the sea, all alone. He has overcome every being in this world, but is that really true? Isn't there someone stronger? The world can't be this small!

The only thing that can quench one's thirst is fighting strong opponents. Under the pressure of the deep sea, a raised fist roars, splits the water, explodes the magma, and creates a gate to another dimension with a bolt of lightning.

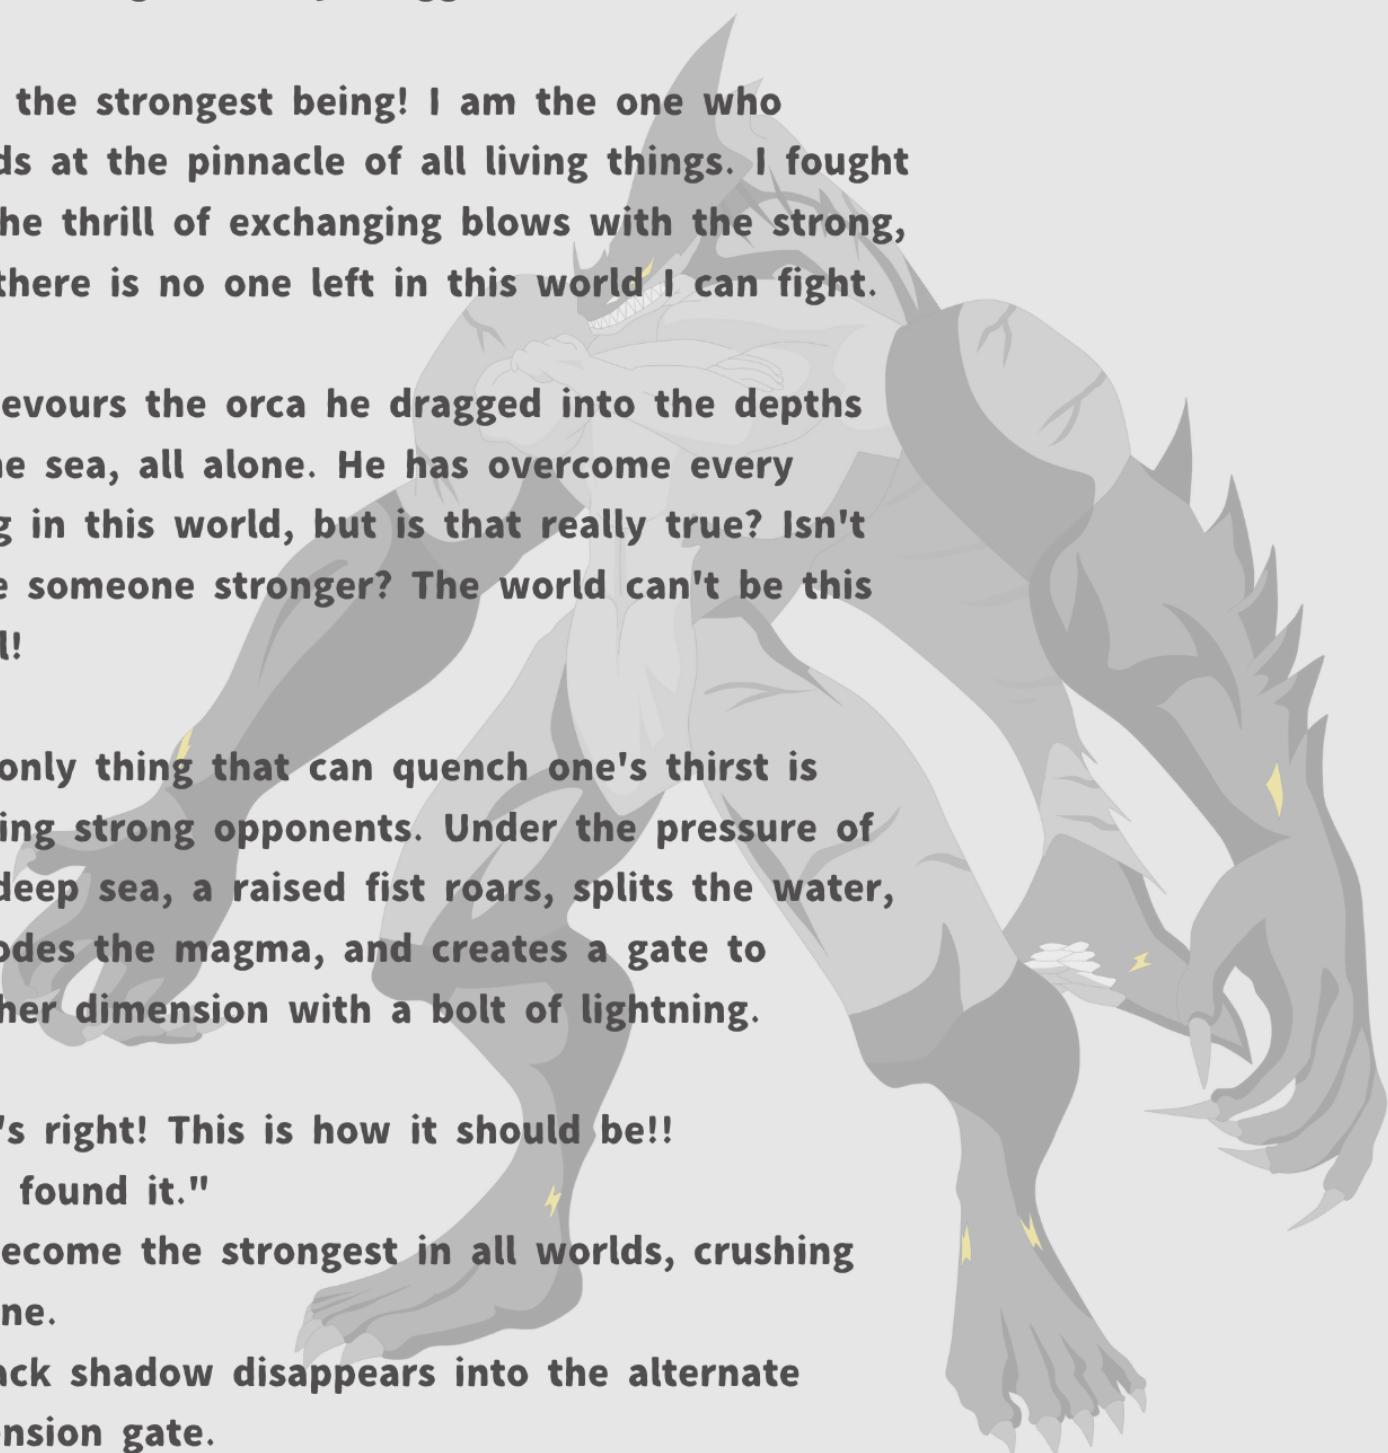

That's right! This is how it should be!!

"I've found it."

I'll become the strongest in all worlds, crushing anyone.

A black shadow disappears into the alternate dimension gate.

The darkness of the deep sea has once again regained its silence.
