

NINJA SENKI DX

How to Play

Thank you!

Thank you for buying Ninja Senki DX, a digital game by TRIBUTE GAMES INC.

A great challenge awaits you in Ninja Senki DX! As a ninja, you need to hone your skills and reflexes, but you also need a deep knowledge of your surroundings. For that reason, we recommend that you read this manual carefully before playing the game.

The Story

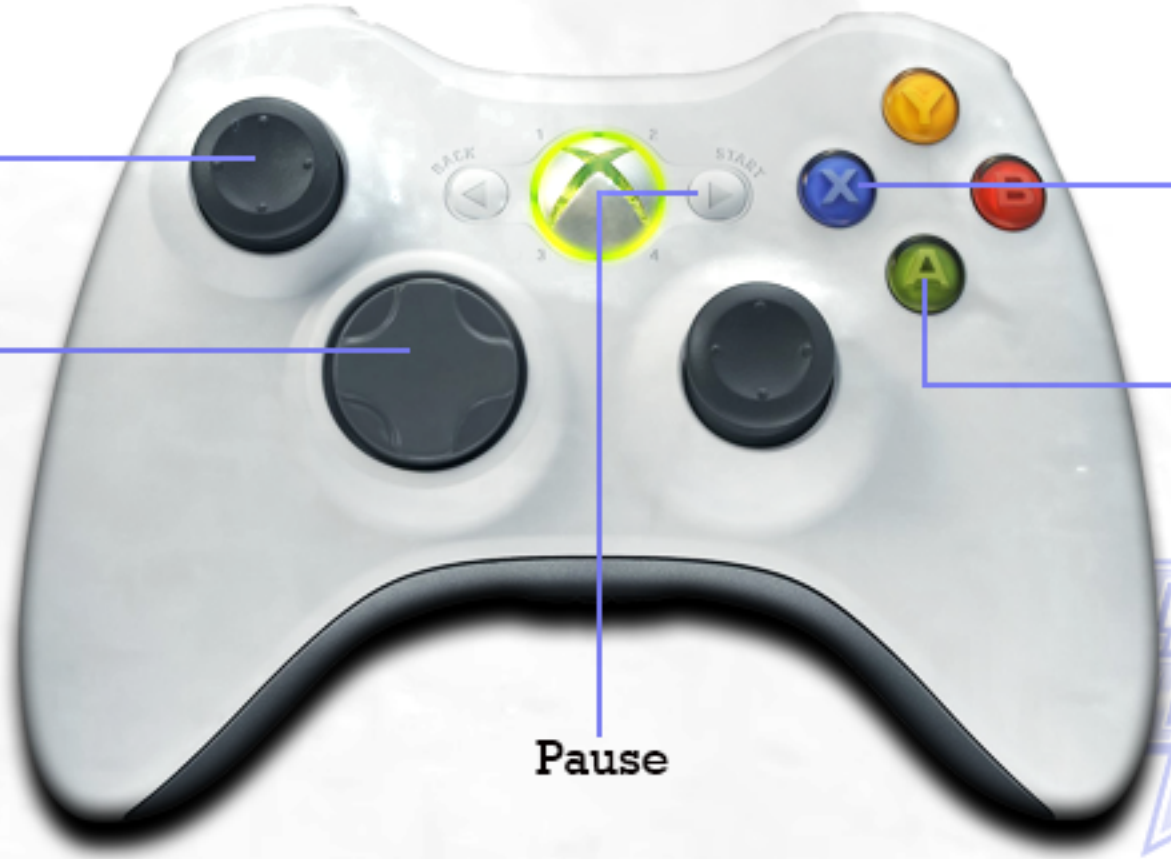

Kinuhime was killed by a ninja demon. Now, Hayate has become obsessed with revenge! But can revenge bring her back?

Only YOU can find out!

NINJA SENKI DX

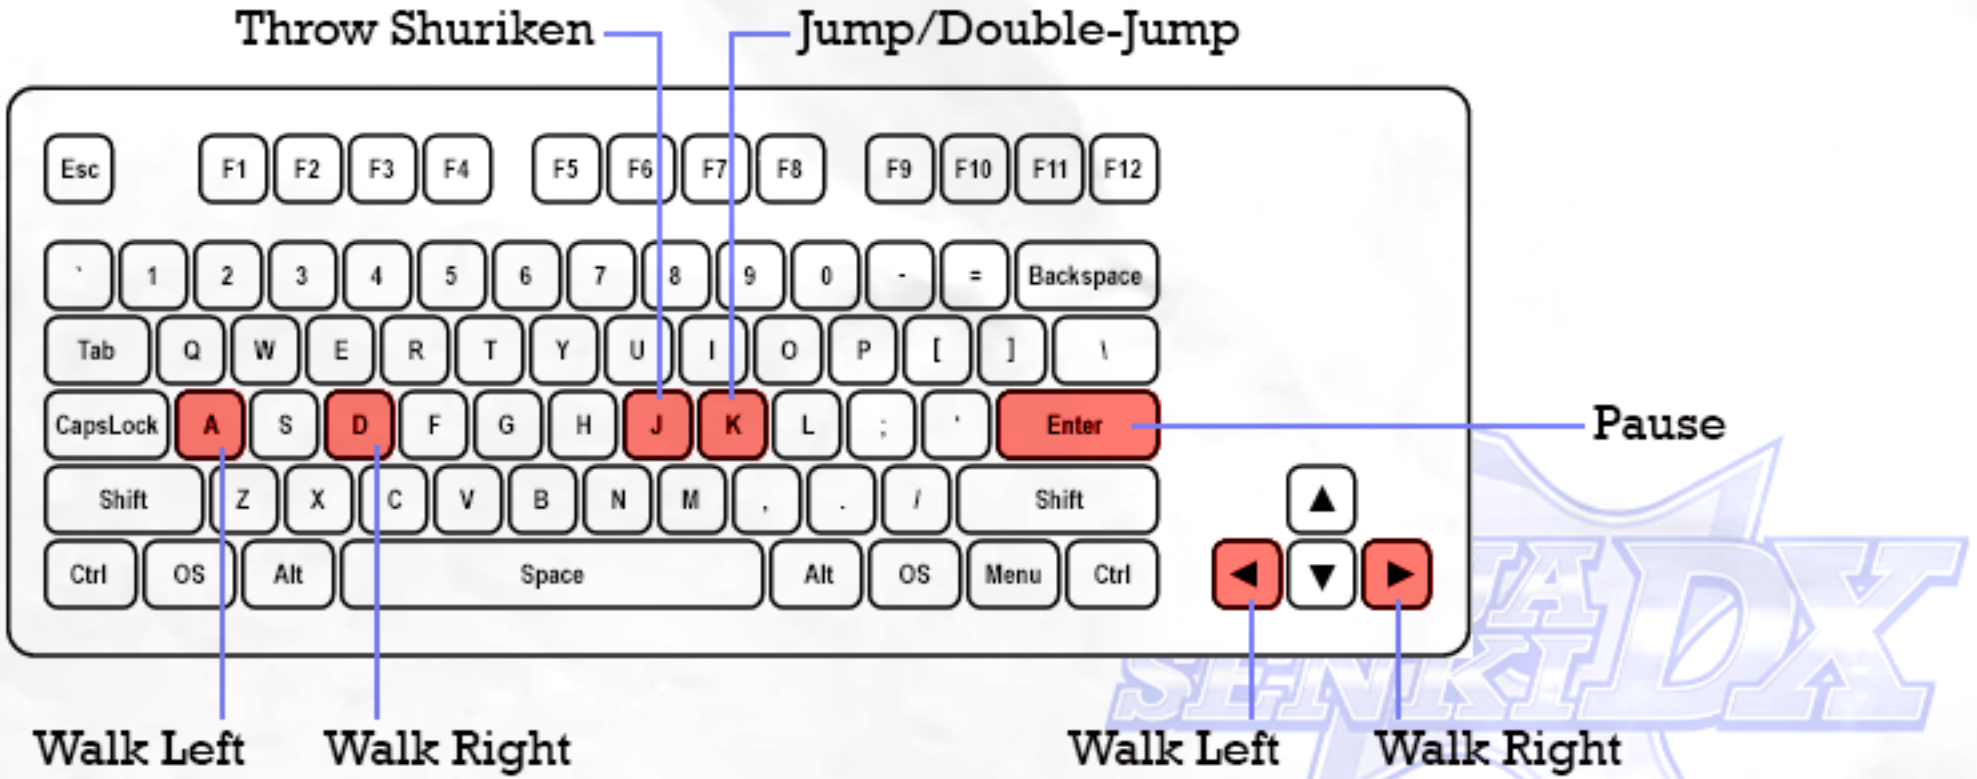

Controls for Hayate (Gamepad)

Controls for Hayate (Keyboard)

More Controls

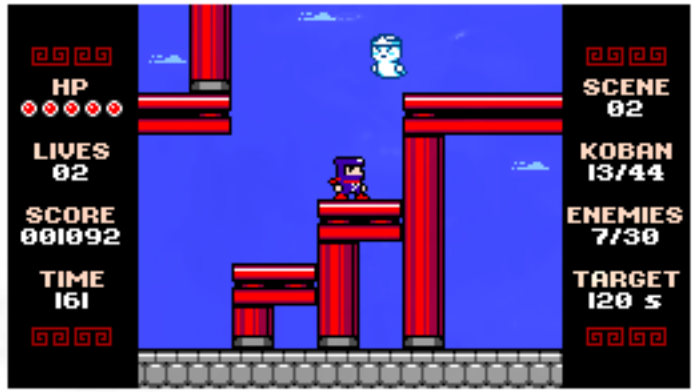

+/- (keypad):	Adjust Screen Size (windowed only)
Alt+Enter:	Toggle Fullscreen
F2:	Toggle Surfaces On/Off (On by default)
F12:	Take Screenshot

Windows: Saved in C:\Users\YourName\AppData\Local\NinjaSenkiDX\Screenshots
Mac: Not supported.

ADVICE: Press F2 once the game started if your graphic card isn't compatible with Game Maker surfaces, which Ninja Senki DX uses.

The Screen

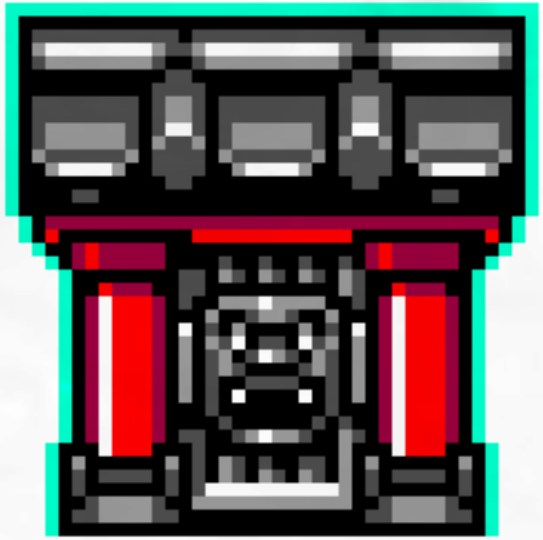

HP:	Hayate's health points
LIVES:	Number of lives remaining
SCORE:	Your current total score
TIME:	Time remaining is converted to bonus points when clearing a scene
SCENE:	Current scene number
KOBAN:	Number of coins picked up during the current scene
ENEMIES:	Number of enemies defeated during the current scene
TARGET:	Clear the current scene before the target time is reached to get an award

! ADVICE: Your HP is refilled every one thousand points. If your HP is already full, you gain an extra life!

Clearing a scene

To clear a scene, Hayate must reach the door at the end of the level. Beware, sometimes the door is protected by a Monban (a demonic gatekeeper) or even more powerful mythical creatures!

NINJA SENKI DX

Character profile: Hayate

Hayate is a grand master of shurikenjutsu, a powerful martial art focused solely on throwing shurikens. Hayate departs on a quest of revenge after the death of Kinuhime, his beloved and the princess of his clan.

NINJA SENKI DX

Character profile: Kinuhime

Kinuhime is the princess of a powerful ninja clan. She was killed in a cowardly attack by a ninja demon, but make no mistake, she is a kunoichi of unrivaled skill.

NINJA SENKI DX

Character profile: Shiro

An evil ninja demon dedicated to destroying Kinuhime's clan. He corrupts the spirits of the Yokai kingdom to fulfill his evil plan. Being able to teleport by jumping between the human world and the Yokai kingdom, he assassinates Kinuhime in her own village.

NINJA SENKI DX

FAQ

1. I hate the original keyboard configuration!
- On PC, go to C:\Users\YourName\AppData\Local\NinjaSenkiDX and edit keyboard.cfg
- On Mac, go to /Users/YourName/Library/Application Support/com.yoyogames.macyoyorunner

2. I want to delete my save file!
- On PC, go to C:\Users\YourName\AppData\Local\NinjaSenkiDX and delete ns_save.sav
- On Mac, go to /Users/YourName/Library/Application Support/com.yoyogames.macyoyorunner/SaveGame

3. There are strange graphical glitches and/or the game runs slowly!
- Try deactivating the surfaces by pressing F2 after you launch the game.

4. This game is too hard!
- Remember that you are playing as a ninja.

5. I want to play the original freeware version of the game!
- You can download it for free from ninjasenki.com

6. I have something to tell you about the game!
- Contact us at info@tributegames.com or on Twitter @TributeGames
