~ PLOT ~

Black Rose is a first-person survival horror game in which you assume the role of Linda, an average girl who heard rumors about an old abandoned funeral home being haunted. No one knows what happened to many of the people who used to work there, but legend says they were murdered. By who? Linda wants to find this out for herself, so she goes to the secluded funeral home. But not long after entering, things go horribly wrong.

~ SCORE ~

Your score will be based on 'Close Calls'. Close Calls are achieved by getting close to the enemy without letting them catch you. When your score starts increasing, the enemy is dangerously close. Try to get as many Close Calls as possible to bring up your score, but be aware that you should not let your Close Calls with the first enemy last for too long. This enemy is particularly volatile, and will quickly catch you if you are close for too long.

~ CONTROLS ~

KEYBOARD AND MOUSE:

Use the ARROW KEYS or W, A, S, D to move, hold SHIFT to run, and move the mouse to look around. LEFT-CLICK to interact/open doors, and press TAB to pause. Press and hold SPACE to ram doors that are jammed.

XBOX 360 CONTROLLER:

Use the LEFT JOYSTICK to move, hold LT to run, and use the RIGHT JOYSTICK to look around. Press A to interact/confirm/open doors, and press START to pause. Press and hold RT to ram doors that are jammed, and use X and B for yes-or-no prompts.

~ NOTES ~

* Although you can pause and un-pause the game using the controller, navigating and interacting with the menus still requires the MOUSE.

* If the game crashes or is closed prematurely while the controller is still vibrating, it will continue vibrating until it is shut off (for wireless controllers, you may need to remove the batteries).

* In Story Mode, you can stop the automatic note narrations by pressing SPACE.
