"Sexaroid Girlfriend [VR Edition]" ver.VR.2.00

****

Thank you very much for downloading "Sexaroid Girlfriend."

This software was created using the Unity game engine.

A VR headset is required to play this game. (Please check the system requirements below.)

This is an adult title, and use by anyone under the age of 18 is prohibited.

****

◆Update History

2026.08.25 (ver.VR.2.00)
- Added support for 7 languages (Japanese, English, Chinese, Russian, Spanish, Portuguese, Korean)
- Changed the fade-to-black darkness during position changes from 0.5 to 0.95

2017.09.06 (ver.VR.1.51)
- Changed the executable file name to romanized characters (SexaroidGirl_ver_VR_*_**.exe)
- Fixed a bug where the screen would not return from black during the epilogue

2017.08.26 (ver.VR.1.50)

- Overhauled the UI system that had known issues on the HTC Vive (no change to the controls themselves)
- Added the ability to show/make translucent/hide the male model
- Changed how you proceed to the epilogue from touching an object to selecting from a speech bubble
- Added support for the electric masturbator "Cyclone X10 USB"

2017.07.29 (ver.VR.1.00)
- Full version released on DLsite

2017.07.26 (ver.VR.1.10 Trial)
- Added a manual
- Removed mouse mode

2017.07.03 (ver.VR.1.00 Trial)
- Released on DLsite

****
