B: Toggle firing mode

Left shift: Hold breath

Up/Down arrows: Change a grip

Left/Right arrow: Change a grip

Page up/Page down: Change red dot sights' cross hair

How to change the gun shooting sound.

Make "Aim Master" folder under the "My Documents" folder (Generally,

C:\Users\W[USER NAME]\Documents).

Get or make the sound file which you want to hear when you shoot the in the game.

Change the sound file name to the one of the gun names. The list of the gun names are:

AKM.wav

M416.wav

M4A1.wav

SCAR.wav

M16A4.wav

KAR98K.wav

Move a sound file to the "Aim Master" folder. Then the gun sound is automatically changed to that file when the game launch. Only the wav file format is supported.

The purpose of "Logging in to HITCLE.COM"

If you log in to HITCLE.COM the result of "Ability test" and "Challenge" modes saves on HITCLE.COM database. You can see your result on HITCLE.COM.
